

Preface

The papers of this volume are contributions of a workshop on the ‘Power of the Priests – Political Use of religious Knowledge’ held by the Subcluster Knowledge of the DFG Excellence Cluster ROOTS at the Christian-Albrechts University at Kiel November 29 until December 1, 2018. At the end, the publication was made possible by the generous financial support of the Excellence Cluster ROOTS and the extraordinary patience of the publisher, Christoph Lundgreen, De Gruyter. Both of them we thank explicitly.

Furthermore, the volume never would have been finished without the practical help and assistance of Valerio Mejr and Rico May in the Institut für Klassische Altertumskunde at the CAU Kiel. Of course, for all remaining insufficiencies only we, the editors, take responsibility.
