

Preface

The present publication has its origin in a workshop held in Basel on 23–24 May 2015 under the auspices of the National Center of Competence and Research “eikones – iconic criticism” (Swiss National Science Foundation and Universität Basel). Presenting participants in addition to the authors of this publication were Philippe Collombert, Antonio Loprieno, and Wolfgang Behr. We express our very warm thanks to Ralph Ubl, director of the NCCR “eikones,” and to Susanne Bickel, chair of Egyptology and of the Departement Altertumswissenschaften, both Universität Basel, for their continuous support and hosting of the event. Our thanks go further to the editors of *Zeitschrift für ägyptische Sprache, Beihefte* for accepting this work in their series. We remain particularly grateful to Ralph Ubl and “eikones” for generous help with the publication costs.
