

Contents

Volume 1: Alkyl Perchlorate Esters – Fluorine

Alkyl Perchlorate Esters — 1

- 1 Preparation of Alkyl Perchlorates — 2
- 2 Physical Properties of Alkyl Perchlorates — 4
- 3 Chemical Properties of Alkyl Perchlorates — 5
- References — 6

Difluoroamino Compounds — 9

- 1 Summary Literature on Organic Fluoroamino Compounds — 10
- 2 Monofluoroamino Compounds — 11
- 3 Difluoroamino Compounds — 12
- References — 63

Dinitramide Oxidizers — 77

- 1 Ammonium Dinitramide (= Dinitramidate) and Ammonium Nitroformate — 77
- 2 Production of Ammonium Dinitramide — 81
- 3 Physical Properties of Ammonium Dinitramide — 120
- 4 Chemical Properties of Ammonium Dinitramide — 163
- 5 Toxicity of Ammonium Dinitramide — 246
- 6 Safe Handling of Ammonium Dinitramide — 253
- 7 Safety Properties of Ammonium Dinitramide — 254
- 8 Applications of Ammonium Dinitramide — 261
- 9 Alkali Metal Dinitramide Salts — 262
- 10 Dinitramide Salts of Other Metals — 275
- 11 Dinitramide Salts of Nitrogen-Containing Bases — 277
- 12 Other Oxidizing Ammonium Salts — 291
- References — 294

Dinitrogen Pentoxide — 335

- 1 Production of Dinitrogen Pentoxide — 336
- 2 Physical Properties of Dinitrogen Pentoxide — 338
- 3 Chemical Properties of Dinitrogen Pentoxide — 347
- 4 Hazardous Properties of Dinitrogen Pentoxide — 352
- 5 Dinitrogen Pentoxide Mixtures with Other Oxidizers — 353
- References — 359

Dinitrogen Tetroxide — 367

- 1 General Information on Dinitrogen Tetroxide — **368**
- 2 Production of Dinitrogen Tetroxide — **369**
- 3 Physical Properties of Dinitrogen Tetroxide — **374**
- 4 Physical Properties of Oxidizer Blends with Dinitrogen Tetroxide — **437**
- 5 Chemical Properties of Dinitrogen Tetroxide — **460**
- 6 Materials of Construction for Dinitrogen Tetroxide — **495**
- 7 Components for Dinitrogen Tetroxide Service — **533**
- 8 Handling of Dinitrogen Tetroxide — **540**
- 9 Toxic Properties of Nitrogen Dioxide and Dinitrogen Tetroxide — **568**
- 10 Safety Properties of Dinitrogen Tetroxide — **574**
- References — **575**

Dinitrogen Trioxide — 625

- 1 Production of Dinitrogen Trioxide — **626**
- 2 Physical Properties of Dinitrogen Trioxide — **626**
- 3 Chemical Properties of Dinitrogen Trioxide — **645**
- 4 Toxicity of Dinitrogen Trioxide — **649**
- 5 Handling of Dinitrogen Trioxide — **649**
- References — **649**

Fluorine — 653

- 1 Production of Fluorine — **655**
- 2 Physical Properties of Fluorine — **663**
- 3 Chemical Properties of Fluorine — **708**
- 4 Materials of Construction for Fluorine — **722**
- 5 Components for Fluorine Service — **747**
- 6 Special Problems During the Use of Fluorine — **754**
- 7 Handling Procedures and Equipment for Fluorine — **766**
- 8 Physiological and Toxic Effects of Fluorine and HF — **775**
- 9 Mixtures of Fluorine with Other Oxidizers — **785**
- References — **793**

Volume 2: Halogen Fluorides – Hydrogen Peroxide

Halogen Fluorides — 827

- 1 Halogen Fluorides — **830**
- 2 Chlorine Fluorides — **836**
- 3 Bromine Fluorides — **934**
- 4 Iodine Fluorides — **943**
- 5 Ternary Fluorides — **948**

- 6 Other Halogen Perchlorates — 974
- References — 975

Hydrazinium Salt Oxidizers — 1009

- 1 Hydrazinium(1+) Nitrate — 1009
- 2 Hydrazinium Perchlorates — 1051
- 3 Hydrazinium Nitroformate — 1071
- 4 Hydrazinium Dinitramide — 1125
- 5 Hydrazinium Azide — 1129
- 6 Other Hydrazinium and Nitrohydrazinate Salts — 1140
- References — 1141

Hydrogen Peroxide — 1167

- 1 General Information on Hydrogen Peroxide — 1167
- 2 Production of Hydrogen Peroxide — 1173
- 3 Physical Properties of Hydrogen Peroxide — 1206
- 4 Chemical Properties of Hydrogen Peroxide — 1295
- 5 Materials of Construction for Hydrogen Peroxide — 1434
- 6 Components for Hydrogen Peroxide Service — 1458
- 7 Handling of Highly Concentrated Hydrogen Peroxide — 1463
- 8 Toxic Properties of Hydrogen Peroxide — 1479
- 9 Explosion Hazards of Hydrogen Peroxide — 1498
- 10 Oxonium and Peroxonium Salts — 1517
- 11 Alkali Metal and Alkaline Earth Metal Peroxides — 1517
- References — 1520

Volume 3: Hydroxylammonium Salts – Nitroaliphatic Compounds

Hydroxylammonium Salts — 1589

- 1 Hydroxylamine Free Base — 1589
- 2 Hydroxylammonium Salts — 1626
- 3 Hydroxylammonium Nitrate — 1628
- 4 Hydroxylammonium Perchlorate — 1748
- 5 Other Hydroxylammonium Salts — 1763
- 6 Alkylhydroxylammonium Salts — 1765
- References — 1778

Mixed Nitric Acid — 1817

- 1 Mixed Acid — 1817
- 2 Other Mixtures with Nitric Acid — 1819
- References — 1826

Nitrate Esters — 1829

- 1 Alkyl Nitrates — **1829**
- 2 Methyl Nitrate — **1853**
- 3 Ethyl Nitrate — **1865**
- 4 *n*-Propyl Nitrate — **1876**
- 5 Isopropyl Nitrate — **1894**
- 6 Higher Alkyl Mononitrates — **1910**
- 7 Alkyl Nitrates with Ring Structures — **1914**
- 8 Higher Alkyl Polynitrates — **1918**
- 9 C₂ Alkylpolynitrates — **1919**
- 10 C₄ Alkyl Polynitrates — **1981**
- 11 C₅ Alkylpolynitrates — **1994**
- 12 C₆ Alkylpolynitrates — **2001**
- References — **2015**

Nitrate Oxidizers — 2053

- 1 Introduction – Solid Nitrate Oxidizers — **2053**
- 2 Ammonium Nitrate — **2056**
- 3 Metal Nitrates — **2197**
- References — **2198**

Nitric Oxide — 2235

- 1 General Comments about Nitrogen Oxides — **2235**
- 2 Nitric Oxide — **2235**
- 3 Preparation of Nitric Oxide — **2236**
- 4 Physical Properties of Nitric Oxide — **2237**
- 5 Chemical Properties of Nitric Oxide — **2252**
- 6 Toxicity and Physiological Effects of Nitric Oxide — **2263**
- 7 Applications of Nitric Oxide — **2264**
- References — **2265**

Nitroaliphatic Compounds — 2271

- 1 Nitroaliphatic Compounds (Nitroalkanes) — **2271**
- 2 Nitroethane — **2271**
- 3 Higher (C_{n>2}) Mononitroalkanes — **2279**
- 4 Higher Polynitroalkanes — **2291**
- 5 Straight-Chain Polynitroalkanes and Polynitroalkenes — **2296**
- 6 Nitroalkynes — **2327**
- 7 Straight-Chain C₃ Polynitropropanes — **2328**
- 8 C_{n>3} Polynitroalkanes — **2330**
- 9 Bridged and Fused-Ring Structure Cycloaliphatic Polynitroalkanes — **2336**
- 10 Caged Cycloaliphatic Polynitroalkanes — **2336**

- 11 Nitroalkanols — **2355**
- 12 Fluorodinitroalkyl Amines — **2360**
- 13 Higher Mono- and Polynitroethers — **2360**
- 14 Nitroalkyl Esters — **2367**
- 15 Nitroalkyl Formals and Acetals — **2368**
- 16 Fluoronitroalkanes — **2377**
- 17 Nitroazidoalkanes (Azidonitroalkanes) — **2383**
- 18 Other Polynitroalkyl Derivatives — **2386**
- References — **2387**

Volume 4: Nitroaromatic Compounds – Oxygen

Nitroaromatic Compounds — 2421

- 1 Nitroaromatic Compounds (Nitroarenes) — **2421**
- 2 Nitrobenzenes — **2428**
- 3 Nitrotoluenes — **2434**
- 4 Nitrophenols — **2437**
- 5 Picramide — **2438**
- 6 Tetryl — **2439**
- 7 Nitronaphthalenes — **2439**
- References — **2440**

Nitro Compounds — 2445

- 1 General Properties of Nitro Compounds as a Family Group — **2445**
- References — **2448**

Nitrogen Dioxide — 2449

- 1 Natural Occurrence of Nitrogen Dioxide — **2450**
- 2 Production of Nitrogen Dioxide — **2450**
- 3 Physical Properties of Nitrogen Dioxide — **2451**
- 4 Chemical Properties of Nitrogen Dioxide — **2464**
- 5 Toxicity of Nitrogen Dioxide — **2476**
- References — **2488**

Nitrogen Fluorides — 2501

- 1 Nitrogen Trifluoride — **2503**
- 2 Tetrafluoroammonium Salts — **2559**
- 3 Tetrafluorohydrazine — **2573**
- 4 Difluorodiazene — **2598**
- 5 Other Nitrogen Fluorides — **2605**
- 6 Nitrogen Oxygen Fluorides — **2608**

- 7 Nitrogen Chloride Fluorides — **2633**
- 8 Fluoroamine and Difluoroamine — **2634**
- 9 Other Nitrogen–Oxygen–Fluorine Compounds — **2636**
- References — **2636**

Nitrogen Oxides — 2679

- 1 Nomenclature of Nitrogen Oxides — **2680**
- 2 Physical Properties of Nitrogen Oxides — **2681**
- 3 Nitric Oxide — **2687**
- 4 Dinitrogen Trioxide — **2687**
- 5 Nitrogen Dioxide — **2688**
- 6 Dinitrogen Tetroxide — **2688**
- 7 Dinitrogen Pentoxide — **2688**
- 8 Nitrogen Trioxide — **2688**
- 9 Other Nitrogen–Oxygen Compounds — **2688**
- 10 Other Nitrogen–Oxygen–Halogen Compounds — **2698**
- References — **2701**

Nitromethanes — 2707

- 1 Nitroaliphatic Compounds (Nitroalkanes) — **2707**
- 2 Nitromethanes — **2729**
- 3 Nitromethane — **2731**
- 4 Dinitromethane — **2818**
- 5 Trinitromethane — **2820**
- 6 Tetranitromethane — **2832**
- References — **2860**

Nitrous Oxide — 2905

- 1 General Information on Nitrous Oxide — **2905**
- 2 Preparation of Nitrous Oxide — **2906**
- 3 Physical Properties of Nitrous Oxide — **2909**
- 4 Chemical Properties of Nitrous Oxide — **2978**
- 5 Toxicity of Nitrous Oxide — **2997**
- 6 Environmental Impact of Nitrous Oxide — **3000**
- 7 Materials' Compatibility with Nitrous Oxide — **3000**
- 8 Components for Nitrous Oxide Systems — **3001**
- 9 Safety Properties of Nitrous Oxide — **3005**
- 10 Handling of Nitrous Oxide — **3020**
- 11 Other Uses of Nitrous Oxide — **3022**
- References — **3023**

Noble Gas Fluorides — 3043

- 1 Preparation of Noble Gas Fluorides — **3043**
- 2 Physical Properties of Noble Gas Fluorides — **3045**
- 3 Ternary Fluorides — **3046**
- 4 Noble Gas Oxyfluorides — **3046**
- References — **3048**

Oxygen — 3053

- 1 Oxygen — **3053**
- 2 Production and Availability of Liquid Oxygen — **3053**
- 3 Physical Properties of Oxygen — **3055**
- 4 Chemical Properties of Liquid Oxygen — **3124**
- 5 Materials Compatibility with Liquid Oxygen — **3130**
- 6 Toxicity of Liquid Oxygen — **3140**
- 7 Handling, Transportation, Storage, Transfer, and Disposal Equipment for Liquid Oxygen — **3141**
- 8 Flow Control Components and Instrumentation for LOX Systems — **3155**
- 9 Transfer and Pumping of LOX — **3158**
- 10 Cleaning of LOX Equipment — **3168**
- 11 Hazards in Handling of LOX — **3168**
- References — **3183**

Volume 5: Oxygen Fluorides – White Fuming Nitric Acid**Oxygen Fluorides — 3219**

- 1 Literature on Oxygen Fluorides — **3220**
- 2 Oxygen Difluoride — **3221**
- 3 Dioxygen Difluoride — **3257**
- 4 Trioxxygen Difluoride and Tetraoxygen Difluoride — **3265**
- 5 Other Oxygen Fluorides — **3277**
- References — **3278**

Ozone and Ozone/Oxygen Mixtures — 3293

- 1 Introduction — **3293**
- 2 Preparation, Production, and Availability of Ozone — **3296**
- 3 Physical Properties of Ozone — **3300**
- 4 Chemical Properties of Ozone — **3333**
- 5 Construction Materials for Handling Ozone — **3361**
- 6 Toxic Properties of Ozone — **3361**

- 7 Handling of Ozone and Ozone/Oxygen Mixtures — **3363**
- 8 Ozone Mixtures with Other Oxidizers (Besides Oxygen) — **3365**
- References — **3367**

Perchlorate Oxidizers — 3383

- 1 Perchlorates in General — **3383**
- 2 Ammonium Perchlorate Production — **3386**
- 3 Physical Properties of Ammonium Perchlorate — **3407**
- 4 Chemical Properties of Ammonium Perchlorate — **3449**
- 5 Combustion (= Deflagration) of Ammonium Perchlorate — **3580**
- 6 Compatibility With Ammonium Perchlorate — **3632**
- 7 Toxicity of Ammonium Perchlorate — **3633**
- 8 Environmental Effects of Ammonium Perchlorate — **3672**
- 9 Handling of Ammonium Perchlorate — **3731**
- 10 Explosive and Fire Hazards of Ammonium Perchlorate — **3738**
- 11 Alkali Metal Chlorates and Perchlorates — **3752**
- 12 Alkaline Earth Metal Chlorates and Perchlorates — **3761**
- 13 Nitronium (Nitryl) and Nitrosonium (Nitrosyl) Compounds — **3765**
- 14 Other Non-Metal Perchlorates — **3779**
- References — **3780**

Red Fuming Nitric Acid — 3881

- 1 Red Fuming Nitric Acid — **3881**
- 2 Inhibited Red Fuming Acid — **3929**
- 3 Gelled Nitric Acids — **3944**
- References — **3947**

White Fuming Nitric Acid — 3963

- 1 White Fuming Nitric Acid — **3963**
- 2 Production of White Fuming Nitric Acid — **3965**
- 3 Physical Properties of White Fuming Nitric Acid — **3968**
- 4 Chemical Properties of WFNA — **4011**
- 5 Compatibility with and Corrosion Caused by WFNA — **4022**
- 6 Components for Nitric Acid Service — **4030**
- 7 Toxicity of WFNA — **4032**
- 8 Safe Handling of WFNA — **4034**
- 9 Gelled Nitric Acids — **4035**
- References — **4036**

List of Acronyms — 4051

Acknowledgments — 4059

Index — 4061
