

Domains and Dynasties

The Radical Autonomy of Syntax

Studies in Generative Grammar

The goal of this series is to publish those texts that are representative of recent advances in the theory of formal grammar. Too many studies do not reach the public they deserve because of the depth and detail that make them unsuitable for publication in article form. We hope that the present series will make these studies available to a wider audience than has hitherto been possible.

Editors:

Jan Koster

Henk van Riemsdijk
