

Contents

General Problems	1
 Some Basic Principles for the Formation of Structure in Nonlinear Systems of Thermodynamic Kind H.-G. Busse	 3
 Topologically Stable Patterns in Condensed Matter V. P. Mineev, G. E. Volovik	 13
 New Types of Order and Stochastic Regimes in Nonlinear Media T. S. Akhromeyeva, S. P. Kurdjumov, G. G. Malinetskii, A. B. Potapov, A. A. Samarskii	 35
 Chirality Wave Propagation and the First Evolutionary Catastrophe Ya. B. Zeldovich, A. S. Mikhailov	 57
 Nonlinear Bioenergetics A. S. Davydov	 69
 Selection Between Aging Species W. Ebeling, A. Engel, V. G. Mazenko	 87

XII

Pattern Formation in Chemical and Biochemical Systems 103

Pattern Formation and Wave Propagation in Chemical Systems
I. R. Epstein 105

Spatial Ordering Processes in Chemical Reactions
S. C. Müller 127

**Evolution of Populations of Biothermodynamic Systems Including
Birth and Death-Processes**
J. U. Keller 149

**Monitoring Oscillating Chemical Reactions: The Rate of Heat Production
and the Simultaneous Measurement of Other Physical Signals**
Th. Plessner, I. Lamprecht 165

**Rate Limiting Steps in Oscillating Plant Glycolysis: Experimental
Evidence for Control Sites Additional to Phosphofructokinase**
K. Kreuzberg, A. Betz 185

**Dynamic Structures in the Fructose-6-Phosphate/
Fructose-1,6-Bisphosphatase Cycle**
W. Schellenberger, M. Kretschmer, K. Eschrich, E. Hofmann 205

Pattern Formation in Biological Systems 223

**Morphogenesis of Behaviour and Information Compression
in Biological Systems**
H. Haken 225

Model of Pattern Generation on Plants, Based on the Principles of Minimal Entropy Production	
R. V. Jean	249
Structures in Models of Morphogenesis	
B. S. Kerner, V. I. Krinskii, V. V. Osipov	265
Self-Organisation of Biological Morphogenesis: General Approaches and Topo-Geometrical Models	
L. V. Belousov, A. V. Lakirev	321
Topological and Thermodynamic Structures of Morphogenesis	
E. V. Presnov, S. N. Malyghin, V. V. Isaeva	337
Fractal Shapes of Cell Membranes and Pattern Formation by Dichotomous Branching Processes	
T. F. Nonnenmacher	371
Autowave Mechanochemical Model for Physarum Shuttel Streaming	
Yu. M. Romanovskii, V. A. Teplov	395
Statistical Geometry of Tissues	
N. Rivier	415
Surface Changes and Shape Formation During Organism Growth	
G. V. Timchenko, E. A. Prokofiev, A. I. Zotin	447
List of Contributors	459
References	465
Subject Index	513
