To Prof. Dr. ir. Peter M. M. Bongers (†),
with whom we shared the passion for
product-driven process synthesis
but unfortunately cannot be with us today
to witness the result of our vision

To all people who guided, excited and contributed to the creation of this work:

- All students and colleagues who provided content through discussions!
- My sons, Victor Haim and Jacob Zeëv, and my partner Aleksandra, who are the driving force of all activity in my life!

— EZO

To all the people who helped and inspired me throughout this journey:

- Prof. em. ir. Johan Grievink, my mentor and former supervisor, from whom I learned the most important lessons of process design,
- Patricia, my wife and life partner, and my two precious peas Lucia and Cristina, who are my reasons for being,
- my parents, who raised me to become persistent and to stay true to my beliefs, and
- the design practitioners out there, who are committed to redesigning this world and making it a better place for everyone.

— CAR

To all the people who supported and inspired me: my family, my colleagues and my students

— KVC
