

# Oral Sources

The list below shows the names of informants, the place where the interviews were done and the dates. As a sign of appreciation, the list includes all informants who were interviewed in the field, though not all are cited in this study. It has been necessary to address some of these informants (those from Moshi) as *Mzee* (Swahili) and *Meku* (Chagga), both referring to ‘old man’ and *Mkyeku* (chagga) meaning ‘old woman’, to differentiate them from the rest of informants who are not old enough to be addressed that way. It should be noted that some informants in Dar es Salaam were interviewed by the researcher in 2006 when doing field work for his MA (History) Degree programme. The oral accounts which were transcribed and kept by the researcher contain important information about street names in Dar es Salaam city centre.
