

List of contributors

Catherine Adams is a Professor of educational computing at the University of Alberta, Faculty of Education. Her research investigates digital technology integration in educational environments, focusing on its ethical and pedagogical implications.

Anthony Amicelle is Associate Professor at Sciences Po Bordeaux, Department of Political Science, and Affiliate Professor at the University of Montreal, Department of Criminology. He works on global policymaking in relation to corruption and financial crime, as well as on the role of surveillance in the policing of transnational flows.

Jan Christoffer Andersen is a Doctoral research fellow at the University of Oslo, Department of Criminology and Sociology of Law. His research explores narratives, masculinity, stigma, and the subcultural characteristics of the incel community online.

Claudia Aradau is a Professor in the Department of War Studies at King's College London. She works on the political contestation of security practices and technologies deployed to govern individuals and populations globally.

Will Arpke-Wales is a PhD candidate at the University of Melbourne, School of Social and Political Sciences. His work focuses on the intersection between technology, harm and misogyny.

Silje Anderdal Bakken is a Postdoc at the University of Oslo, Department of Criminology and Sociology of Law. She works on the role of digitalization on crime and crime control, as well as further developing online qualitative methods.

Malou Beck is a PhD candidate at Tilburg Law School, conducting socio-legal research on Digital Government and Vulnerability.

Rocco Bellanova is a Research Professor at the Vrije Universiteit Brussel (VUB), Faculty of Law and Criminology, interdisciplinary research group Law, Science, Technology and Society (LSTS). His work studies how digital data become pivotal elements in the governing of societies.

Lee A. Bygrave is a Professor at the Department of Private Law, University of Oslo, where he is Director of the Norwegian Research Center for Computers and Law. He works primarily on researching and developing regulatory policy concerning data privacy, cybersecurity, robotics, artificial intelligence, and governance of critical internet infrastructure.

Robin Cameron is a Senior Lecturer in Criminology & Justice Studies at RMIT University. His research focuses on security through an examination of gender, race, and violence in urban and online spaces.

Janet Chan is Emeritus Professor at the UNSW Faculty of Law and Justice. Her work had been focused on technological change in policing, policing training and cultures, and aspects of creativity.

Stefano Mazzilli Daechsel is a Postdoctoral fellow at the University of Oslo, Department of Criminology and Sociology of Law. His work explores the social, criminological, and philosophical implications of emerging technologies.

Katja de Vries is Senior Lecturer in public law at the University of Uppsala, Department of Law. Her field of expertise is Law and AI, where she currently specializes on the regulation of generative AI, data sharing, and the right to repair.

Heather Dewey-Hagborg is an artist and biohacker whose work engages genetics, privacy, and the social implications of technology.

Ravida Din is a PhD candidate at the University of Ottawa, Institute of Feminist & Gender Studies. She works on the role of digital technologies in gender-based violence.

Simon Egbert, Senior Researcher, Bielefeld University, Faculty of Sociology. He is interested in algorithms, platforms, and predictive analytics, particularly in the context of policing.

Katja Franko is Professor of Criminology at the University of Oslo, Norway. She has published extensively on globalization, migration and border control, international police co-operation, and the use of advanced information and communication technologies in crime control strategies.

Pete Fussey is Professor of Criminology at the University of Southampton. He focuses on human rights and emerging technology, having published widely, authored UN standards, and led national strategy on these issues.

Vasilis Galis is Professor in Science and Technology Studies at the IT University of Copenhagen. Galis was the PI for the Nordforsk funded project Critical Understanding of Predictive Policing. Galis' research focuses on the digitalization of the welfare state and law enforcement, participating in academic and public debates regarding the datafication of security, the border, and the judicial system.

Nicholas Gibbs is Assistant Professor in Criminology at Northumbria University. His work focuses on critical sports criminology and social harm, often employing online and offline ethnographic research methods.

Miria Grisot is Professor at the Department of Informatics, University of Oslo. Her research focuses on the sociotechnical study of digital infrastructures in healthcare.

Helene O. I. Gundhus is Professor at the Department of Criminology and Sociology of Law, University of Oslo, and Professor II at the Norwegian Police University College. Her research interests include policing and technology, police professionalism, migration control, crime prevention, and security.

Alexandra Hall is Associate Professor of Criminology at Northumbria University. She is a qualitative researcher with expertise in drug markets, organised crime, criminological ethnography, social and environmental harm, and the crime-economy nexus.

Keith Hayward is Professor of Criminology at the Faculty of Law, University of Copenhagen, Denmark. He has published widely in the areas of criminological theory, terrorism, popular culture, and the crime-technology nexus.

Thomas J. Holt is a Professor in the School of Criminal Justice at Michigan State University. His research focuses on various forms of cybercrime, cyberterrorism, and the policy response to these challenges.

Karen M. Holt is an Assistant Professor in the School of Criminal Justice at Michigan State University. Her research interests include sexual deviance, sexual offending, and the intersection of media and offending.

Julien Jeandesboz is Professor of European and International Politics at the Université libre de Bruxelles (ULB). He works on technology, security, border and immigration enforcement.

Mareile Kaufmann is a Professor at the University of Oslo, Department of Criminology and Sociology of Law. She works on the role of surveillance, science, and technology in different criminological arenas.

Emils Kilis is Senior Researcher at Baltic Studies Centre. His research interests include the social study of science, technology, and expertise in interdisciplinary and transdisciplinary contexts, and the impact of digitalization on various fields of human activity.

Susanne Krasmann is Professor of Sociology at the Department of Social Sciences, Universität Hamburg. She works on changing technologies of control and what they tell us about contemporary societies.

Malcolm Langford is a Professor at the University of Oslo, Department of Public and International Law. He works on human rights, public law and adjudication, new technologies, and legal education.

Matthias Leese is Assistant Professor at the Department of Humanities, Political and Social Sciences, ETH Zurich. His work investigates digital transformation and its effects on social and political ordering.

Naomi Lintvedt is a Doctoral research fellow at the University of Oslo, Norwegian Research Center for Computers and Law. Her research is on the regulation of privacy in human–robot interaction, under the aegis of the project Vulnerabilities in the Robot Society (VIROS) funded by the Norwegian Research Council.

Heidi Mork Lomell is a Professor at the University of Oslo, Department of Criminology and Sociology of Law. Her research interests include knowledge production, crime prevention, policing, and crime policy.

Rose Lunde is a PhD candidate at the University of Oslo, Department of Criminology and Sociology of Law. Her work focuses on prisons, punishment, and drug use treatment and recovery.

Jenny Maria Lundgaard is an Associate Professor at the Norwegian Police University College. She holds a PhD in criminology and does research on technologies and knowledge production in the police.

David Lyon is Professor Emeritus of Sociology and of Law, and former Director of the Surveillance Studies Centre at Queen's University in Kingston Ontario. His current research is on the medieval origins of modern surveillance.

Shoshana Magnet is Professor of Feminist and Gender Studies at the University of Ottawa.

Monique Mann is a Senior Lecturer at the Institute of Criminology at Victoria University of Wellington. Mann examines the political economy and social impacts of new technologies, relationships of power and influence, and advocates for enhanced protections to advance social justice.

Annette Markham is Chair Professor of future literacies and public engagement in the Department of Media and Culture Studies, Utrecht University, Netherlands, where she studies the lived experiences of disruptive technologies and ethical approaches to social research methods in digitally saturated contexts. Learn more at <https://annetmarkham.com>

Anne-Marie McAlinden is (full) Professor of Law and Criminal Justice, School of Law, Queen's University Belfast (UK). She is the author/editor of six books on sexual violence and abuse, including the dynamics of harmful sexual behaviors and cultural, legal, and justice responses.

Avital Mentovich is a Professor of Criminology at the Faculty of Law of the University of Haifa. Her research interests include procedural justice, legitimacy, and people's perceptions of legal institutions.

Sanja Milivojevic is Associate Professor in Digital Futures at Bristol Digital Futures Institute, the University of Bristol. She works on two key areas—borders and mobility, and crime and technology—in a range of criminological and interdisciplinary contexts.

Marion Oswald MBE is Professor in Law at Northumbria University, United Kingdom and Senior Research Associate at the Alan Turing Institute. She researches the interaction between law and digital technology and has a particular interest in the use of data and innovative technology by criminal justice bodies.

Elena Parmiggiani is Associate Professor at the University of Science and Technology (NTNU), Department of Computer Science, and senior researcher at Sintef Nord. She studies digital transformation of data management in digital platforms and infrastructures in different empirical domains.

Angela Paul is a Research Fellow in Law at Northumbria University, United Kingdom. Her research interests include public law, law enforcement technologies, and digital administrative processes.

Anastasia Powell is Professor of Family and Sexual Violence in Criminology & Justice at RMIT University, and a board director of Our Watch—Australia's national organization for the prevention of violence against women. She specializes in policy responses, legal reform, and primary prevention of interpersonal violence, including technology-facilitated abuse.

Orna Rabinovich-Einy is a Professor at the Faculty of Law of the University of Haifa. Her research interests include procedural law, dispute resolution, online dispute resolution, empirical analysis of the law, access to justice, and law and inequality.

Sofia Ranchordás is a Full Professor of Administrative Law at Tilburg Law and Professor of Public Law, Innovation, and Sustainability at Luiss Guido Carlo, Italy. Ranchordas works on regulatory studies, the digital transformation of the public sector, and is interested in how AI exacerbates socioeconomic inequities.

Helen Rand is a Senior Lecturer in Criminology at the University of Greenwich. She researches sex work with a particular focus on the roles of platforms in digital sex work.

Joanna Redden is Associate Professor at Western University. Joanna Redden researches the social and political implications of the increasing uses of AI and automated decision-making systems.

Kristin Bergtora Sandvik (Harvard Law School S.J.D. 2008) is a Professor at the University of Oslo, Department of Criminology and Sociology of Law, and a Research Professor in Humanitarian Studies with the Peace Research Institute Oslo. Professor Sandvik teaches ethics, sociology of law, legal tech, and AI and robot regulations.

Peter Scharff Smith is a Professor at the University of Oslo, Department of Criminology and Sociology of Law. He works on punishment, prisons, human rights, sentiments on justice, the Holocaust, and war crimes.

Gregory Stratton is a Senior Lecturer in Criminology & Justice Studies at RMIT University. Greg also manages the *Bridge of Hope Innocence Initiative*. His research examines wrongful conviction, state crime, media and crime, and identity in the digital age.

Maryja Šupa is an Associate Professor at the Department of Criminology, Vilnius University, Lithuania. Her main interests are online offending research; algorithmic ethics and social control; and deviance in emerging technologies.

Amelia Svensson is an advisor and analyst on ID-misuse at the Norwegian National ID-Centre. She works on sociology of law, intelligence analysis on ID-misuse, crime prevention, and supporting and strengthening ID-work nationally and internationally.

Terrie Lynn Thompson is a Senior Lecturer in Digital Media and Professional Education at the University of Stirling. Her research examines the digital mediation of work and learning, and the innovative use of more-than-human theory and methods to understand the politics and ethics of what digital things do.

Nanna Bonde Thylstrup is Associate Professor at the Department of Arts and Cultural Studies, University of Copenhagen. Her research focuses on the politics and ethics of data, machine learning and digital infrastructures. She is particularly interested in how digitization and algorithmic processes are changing how we encounter, govern and practice knowledge infrastructures, and the political and ethical implications of these changes.

Daniel Trotter is an Associate Professor at the Department of Media and Communication at Erasmus University Rotterdam. His research focuses on forms of digitally-mediated visibility and social sanction.

Mirjam Twigt is a Research Officer/Postdoctoral Researcher at the Leiden Delft Erasmus Centre for Governance of Migration and Diversity, based at Leiden University, Institute of History. She works on the ways in which legal and digital infrastructures interact with people's experiences of unequal mobility.

Meropi Tzanetakis is an Assistant Professor in Digital Criminology at the University of Manchester. Meropi has been conducting pioneering research on the socio-technical aspects of digital drug markets and interdisciplinary studies on AI trust, security, and governance.

Pamela Ugwuodike is Professor of Criminology at the University of Southampton, a Fellow of the UK's Higher Education Academy, and a Fellow of the national Alan Turing Institute for Data Science and Artificial Intelligence. She has international expertise in multidisciplinary research on the ethics and governance of Artificial Intelligence (AI) systems, with a focus on the data-driven technologies deployed by justice systems.

Rosamunde Van Brakel is Assistant Professor and postdoctoral researcher at the Vrije Universiteit Brussel, Faculty of Law & Criminology. She works on the impact and harms of surveillance and artificial intelligence in different criminological settings.

Kristin Veel is Associate Professor at the Department of Arts and Cultural Studies, University of Copenhagen. She works on the integration of digital technologies in our everyday lives and imaginations.

Maja Vestad is a PhD Research Fellow at the University of Oslo, Department of Criminology and Sociology of Law. Her current work explores the impact of changing technologies on forensic science, policing, and criminology.

Tone Linn Wærstad is a Professor at the University of Oslo, Department of Private Law. Her research focuses on human rights law, private international law, and consumer protection law in the family law area.

Professor **Sandra Walklate** is Eleanor Rathbone Chair of Sociology at the University of Liverpool who is recognized for her work in victimology especially in relation to policy responses to violence against women.

David S. Wall, PhD is Professor of Criminology in the Centre for Criminal Justice Studies, University of Leeds, UK where he conducts interdisciplinary research into the development of cybercrimes and its policing. He has published a wide range of books and articles on his research interests and has a sustained track record of interdisciplinary funded research in these areas and he has been a member of various governmental working groups on cybercrime.

Jacqueline Wernimont is Distinguished Chair of Digital Humanities and Social Engagement and an Associate Professor of Film and Media Studies at Dartmouth College in the United States. She is a digital media scholar who specializes in mathematical and computational technologies and whose books include *Numbered Lives: Life and Death in Quantum Media* and the co-edited *Bodies of Information: Intersectional Feminism and Digital Humanities* (with Elizabeth Losh).

Dean Wilson is Professor of Criminology in the Department of Sociology and Criminology, University of Sussex, UK. His research focuses upon surveillance, technology, policing, and security.

Dana Wilson-Kovacs is Associate Professor of Sociology at the University of Exeter, in the Department of Social and Political Studies, Philosophy and Anthropology. Her recent work is on the interface between forensic support and investigative practices and focuses on the use of digital forensics in policing in England and Wales.

Mark A. Wood is a Senior Lecturer in criminology at Deakin University. Most of his research examines the technology-harm nexus and he is currently completing a book on technology-harm relations that offers a framework for examining how technologies contribute to social harms.

Aleš Završnik is a Professor at the Faculty of Law at the University of Ljubljana (Slovenia) and a director of the Institute of Criminology at the same faculty. His research interest lay at the intersection of law, crime, technology, artificial intelligence, and fundamental rights.
