

Index auctorum et operum¹

Vorbemerkung

Im folgenden Register wird antike Literatur in aller Regel nach dem *Thesaurus Linguae Latinae* (Indexband, Leipzig ²1990) sowie Franco Montanaris *The Brill Dictionary of Ancient Greek* (Leiden – Boston 2015, *Vocabolario della lingua greca*, Turin ³2013) abgekürzt. Bisweilen können sich geringfügige Abweichungen zur Zitationspraxis in den einzelnen Aufsätzen ergeben, doch sollte eine Identifikation jederzeit problemlos möglich sein. Unter das Kürzel „AR“ werden sämtliche Versionen (griechisch, lateinisch, armenisch, syrisch etc.) des Alexanderromans unter Angabe der jeweiligen Kapitel zusammengefasst. Parallel dazu werden einzelne Zeilen aus den *Res Gestae Alexandri Macedonis* (ed. Rosellini ²2004) unter dem Eintrag „Iulius Valerius“ aufgelistet.
