Preface — V

List of authors — IX

About the editors — XIII

Mahesh Maurya, Vishal Gangadhar Puranik, A. Senthil Kumar,
Balambigai Subramanian

1 Introduction to artificial intelligence — 1

Shaik Mohammad Rafee, M. Prasad, M. Sunil Kumar, Balamurugan Easwaran

2 AI technologies, tools, and industrial use cases — 21

G. Venkataramana Sagar, S. Ambareesh, P. John Augustine, R. Gayathri

3 Classification and regression algorithms — 53

Ashwin M., Nazeer Shaik, Faiz Akram, Getachew Mamo Wegari

4 Clustering and association algorithm — 87

Nazeer Shaik, S. Chandra Sekaran, Amit Mahajan, Balkeshwar Singh

5 Reinforcement learning — 109

Syed Ibad Ali, Padmavathi Thasappan Kalaivaani, Ambigaipriya S., MD Rafeeq

6 Evaluation of AI model performance — 125

K. Arthi, Veeramalai Sankaradass, Nikhat Parveen, Muralidharan J.

7 Methods of cross-validation and bootstrapping — 145

S. Ramasamy, Kantharaju H. C., N. Bindu Madhavi, Haripriya M. P.

8 Meta-learning through ensemble approach: bagging, boosting, and random forest strategies — 167

Abhisek Sethy, Nazeer Shaik, Pavan Kumar Yadavalli, S. P. Anandaraj

9 AI: issues, concerns, and ethical considerations — 189

Abhisek Sethy, Nazeer Shaik, V. Saravanan, S. Karthika

10 The future with AI and AI in action — 213

S. P. Sreekala, S. Revathy, S. Rajeshwari, B. Girimurugan

11 A survey of AI in industry: from basic concepts to industrial and business applications — 233

S. Revathy, S. P. Sreekala, D. Praveenadevi, S. Rajeshwari

12 The intelligent implications of artificial intelligence-driven decision-making in business management — 251

P. Krishna Priya, Karthik Rudra, Deepak Sai Kandula, G. Charan Teja,
K. Venkata Koushik Reddy

13 An innovative analysis of AI-powered automation techniques for business management — 269

B. Girimurugan, S. Rajeshwari, S. P. Sreekala, S. Revathy

14 The smart and secured AI-powered strategies for optimizing processes in multi-vendor business applications — 287

S. Rajeshwari, D. Praveenadevi, S. Revathy, S. P. Sreekala

15 Utilizing AI technologies to enhance e-commerce business operations — 309

Vijaya Gunturu, Charanjeet Singh, Nikhil S. Patankar, S. Praveena

16 Exploring the potential of artificial intelligence in wireless sensor networks — 331

M. V. Jagannatha Reddy, J. Somasekar, Kaushalya Thopate, Sanjeev Kumar Angadi

17 Exploring artificial intelligence techniques for enhanced sentiment analysis through data mining — 345

Senthil Kumar C, A. R. Arunarani, Piyush Charan, Sanjeev Kumar Angadi

18 Exploring the potential of artificial intelligence for automated sentiment analysis and opinion mining — 361

Pramendra Kumar, Gunawan Widjaja, Nikhil S. Patankar, B. Suresh Kumar

19 A novel blockchain-based artificial intelligence application for healthcare automation — 373

Soumya Mishra, Priyanka Sharma, Bhoopathy Varadharajan, Bhola Khan

20 Enhancing industrial efficiency with AI-enabled blockchain-based solutions — 387

Index — 401
