This study forms part of the research project *Morphosyntaktische Typologie der Toponyme / Morphosyntactic typology of toponyms (TYPTop)* (STO 186/27-1; eBer-22-55215) financed by the *Deutsche Forschungsgemeinschaft (DFG)* from 1st of April 2023 until 31st of March 2026. We are grateful to Paula Müller for her kind technical support in the production process of this text. Adriana Bursch kindly let us glimpse at her quantitative data on the Romanian proprial article. Judith Hock was helpful when it came to finding suitable Hungarian prose. We thank Susanne Hackmack and Karl-Heinz Wagner for giving us access to their Swahili corpus data. Rafael Rodríguez-Ponga y Salamanca gave us a Kaqchikel grammar of the 18th century as a present. Kevin Behrens, Nataliya Levkovich, and Maike Vorholt expertly commented on the draft version. We emphasise, however, that everything that is said in this study is solely our own responsibility.
