

## Acknowledgements

The idea for this book originated from the work within the project *Texts on the Move: Reception of Women's Writing in Finland and Russia 1840–2020*, funded by the Emil Aaltonen Foundation (University of Turku & Tampere University, 2018–2023). The project organised events examining how women reflect on and recall their Soviet or Russian home country in literary presentations, addressing the history of mobility, emigration, family, gender, ethnic or religious background in face of their collective memory in their new place of residence. The project members contributed to this volume as part of their work on the project.

We would like to thank the University of Salzburg and Tampere University for their generous contributions to the Open Access fees. We thank the School of Humanities at the University of Eastern Finland for the financial support for the Kate Sotejeff-Wilson's language revision of the manuscript.

We dedicate this book to the memory of Withold Bonner 16 May 1949 – 6 December 2023.
