

Preface

This book is the fruit of research carried out during my studies at the University of Illinois at Urbana-Champaign, and essentially a revised version of my thesis. Words are never enough to express my gratitude, first and foremost, to Antony Augoustakis, who offered his advice, help, and support throughout the project. I owe special thanks to Stavros Frangoulidis and Orestis Karatzoglou for devoting their time to discussing problems that came up during the revision process. I would also like to thank Theocritus Kouremenos, Poulheria Kyriakou, Thomas Tsartsidis, and Angeliki Tzanetou for reading various parts of the manuscript, and for providing valuable feedback. Finally, I am most grateful to Antonios Rengakos and the editorial team at De Gruyter for their help and guidance throughout the publication process.
