

Contents

List of contributors — VII

M. Parthiban, P. Krishnamoorthy, D. Amaravathi, K. Suresh, S. Karthikeyan
Blockchain technology to secure medical data sharing in machine learning applications ensure privacy and integrity — 1

P. Prasant, Kiran Siripuri, S.B. Mohan, Venkatesan Hariram,
A.S. Vigneshwar
AI-powered sensors and devices for sustained health tracking — 39

T. Sripriya, Praveen Talari, Amirthalakahmi T.M., Senthilkumar B., T.M. Thiyaagu
Development of AI-driven biomedical sensors and devices optimization for continuous health monitoring — 89

A. Aalan Babu, R. Selvakumar, D. Shobana, S. Kavitha, P.R. Therasa
Design and development of AI-driven biomedical sensors and devices and their optimization for continuous health monitoring — 131

B. Yamini, R.M. Dilip Charaan, Janani G., S. Sree Dharinya, G. Parthasarathy
Machine learning-driven personalized medicine: customized drug delivery systems and patient-specific material applications — 193

P. Nagarajan, D. David Neels Ponkumar
Personalized medicine using customized drug delivery systems and patient-specific material solutions, enabled by machine learning algorithms — 239

A. Muniyappan, D.M. Kalai Selvi, S. Ramkumar, K. Suresh Kumar, Ezhil E. Nithila
AI-driven drug design exploring molecular docking and lead optimization using machine learning algorithms — 297

Amit Sharma, G.L. Karthik, Rakhi Kamra, S. Praveena, Venkatesan Hariram
Machine learning models for predicting drug toxicity and side effects — 335

P. Nagarajan, D. David Neels Ponkumar
Machine learning innovations in biomedical materials from drug discovery to personalized medicine — 395

Spoorthi P. Shetty, N. Pragadish, Ashish Verma, K.N.V. Satyanarayana
High-throughput screening for novel medical materials: machine learning-enabled approaches — 445

Vaishnavi V., Meena G., Santhanalakshmi, Anitha R., K. Sivakumar
Automated materials characterization using machine learning for screening biocompatible materials — 489

P. Prasanth, J. Dafni Rose, Pradeepkumar G., T. Shanmugaraja,
P. Janardhan Saikumar
Machine learning algorithms for enhanced medical image analysis and diagnostics — 541

M. Mahalakshmi, S. Sujatha, S. Banumathi, Purushothaman V.,
K. Suresh Kumar
Transforming healthcare with machine learning — 585

G. Jenifa, R. Meenal, A. Anandh, R. Jennie Bharathi, S. Sree Dharinya
Revolutionizing healthcare — 635
