

Contents

Pavan Kumar M. R. and Korhan Cengiz

Early Prediction of Chronic Kidney Disease Using a Novel Hybrid Regularized Adaptive Boosting Algorithm: An Advanced Machine Learning Approach — 1

Sangeetha R. and Nikola Ivković

DigiCure: A Patient-Centric Framework for Digital Transformation in Healthcare — 21

Raj Nivas K. A. and Ashokkumar P.

Exploring Machine Learning Approaches for Maximizing the Likelihood of Diabetes Classification — 41

Sunder R., Gayatri Parasa, Bura Vijay Kumar, B. Kamala,
Chilukala Mahender Reddy, and S. Bathrinath

A Hybrid Machine Learning Model for Risk Stratification and Functional Outcome Prediction in Stroke Survivors — 61

Fathimathul Rajeena P. P., Rahoof P. P., and Sunder R.

Data-Driven Machine Learning Strategies for Oncological Disease Prediction and Early-Stage Detection — 83

Parashiva Murthy B. M., Ik Hesti Agustin, Sowjanya Bharathi, Rayappan Lotus,
S. Bathrinath, and Rishabh Garg

Machine Learning Applications in Mental Health: Ensemble-Based Predictive Modeling for Depression and Anxiety detection — 103

Dafik, N. Ganitha Aarthi, Bura Vijay Kumar, Alycia Sebastian, S. Bathrinath, and
Disha Sushant Wankhede

Privacy-Preserving Machine Learning in Clinical Research: Using Federated Learning to Protect Patient Data — 129

Siva Shankar S., Sunder R., Rahoof P. P., Thangiah Sathish Kumar,
Lingidi Nageswar Rao, and Gayatri Parasa

EpiCastNet: A Spatiotemporal Hybrid Learning Framework for Real-Time Epidemic Forecasting — 149

S. Padmalal, P. Arumugam, M. Baby Anusha, Kalyan Devappa Bamane,
Nagendar Yamsani, and Kireet Muppavaram

**Machine Learning for Early Detection of Chronic Diseases: A Case Study in
Diabetes Prediction — 171**

Medha Sree Anand, Tanvir H. Sardar, Kumar Ayush, Ankita Bose, Mahendra Kumar
Gourisaria, and Nirmala Venkatachalam

Machine Learning Techniques for Healthcare — 193

Tanvir H. Sardar, Laura Aldasheva, and Bishwajeet Kumar Pandey

Applications and Benefits of Machine Learning in Healthcare — 215

Sukumar Rajendran and Ruifeng Hu

**Intelligent Treatment Recommendation Using CareRecNet: A Patient-
Centered Approach to Digital Health Transformation — 233**

Shakila Basheer

**Reinforcement-Driven Graph Neural Framework for Personalized and
Proactive Patient Care in Digital Health Systems — 251**

Shakila Basheer

**Hybrid Attention-Driven Network for Predictive Healthcare Using Machine
Learning and Data Analytics Perspective — 271**

Hariharan Rajadurai and Carolina Mendonca

**MSAG-DFE: A Multi-scale Attention-Guided Deep Feature Extraction
Framework for Enhanced Medical Image Diagnostics — 287**

Partha Pratim Sarmah, Aryan Choudhari, Partha Sarathi Paul, and
Krishnandu Hazra

**On Mental Health Monitoring Using Commercial Wearable Devices and
Machine Intelligence — 305**

Amitava Podder, Shivnath Ghosh, and Subrata Paul

Enhancing Healthcare Delivery Through Evidence-Based Data Utilization — 335

Manjula Sanjay Koti, Rose Bindu Joseph P., Jahnavi S., and Devi A.

**AGBO-CP: An Adaptive Gradient Boosted Optimization Framework for
Enhanced Clinical Prediction Accuracy — 367**

S. Satheesh Kumar, Beena Suresh Gaikwad, Meram Munirathnam,
and Antline Nisha B.

**A Hierarchical Cross-Fusion Feature Extraction Network for Accurate Cervical
Cancer Classification Using Cytology Images — 387**

Sujit Bebortta, Subhranshu Sekhar Tripathy, and Subhendu Kumar Pani

**Analyzing the Impact of Social Network on Epidemiological Spread in the
Healthcare Sector — 409**

Balajee J., Kathiravan K., and Sangar G.

**Intelligent Interventions: Practical Applications of Machine Learning for
Data-Driven Decision-Making in Healthcare — 431**

Preet Kamal and Syed Irfan Yaqoob

**Stress Recognition Through Physiological and Behavioral Signals: A Machine
Learning Perspective — 453**

K. Hariprasath and N. M. Saravana Kumar

**MediChain-FL: A Federated Blockchain Framework for Privacy-Preserving and
Intelligent Healthcare Data Exchange — 485**

Pampana Murali and Dilwar Hussain Mazumder

**Reinforced Multi-objective Optimization Framework for Adaptive Healthcare
Decision Intelligence — 503**

Index — 519
