Preface — V

List of contributors — IX

Saif Ullah Khayam, Muhammad Attique Khan, Ghassen Ben Brahim,
Nazeeruddin Mohammad, Saddam Rubab, Mohammad Shabaz

- 1 Leveraging computational intelligence and mathematical modeling for sustainable future in agriculture: a unified paradigm for recognizing tomato leaf diseases — 1**

Sanchit Vashisht, Shalli Rani, Ankita Sharma

- 2 Digital dawn: how immersive technologies are shaping a sustainable future — 37**

Anshika Sharma, Shalli Rani, Ankita Sharma

- 3 Sustainable intelligence: ethical issues in the evolution of intelligent systems — 57**

Ekta Dixit, Shalli Rani

- 4 Energy sustainability and computational intelligence based routing protocols in WSN: an analytical survey — 75**

Arun Singh, Harpreet Kaur

- 5 Harnessing the metaverse for healthcare innovation: exploring predictive analytics and AI-driven personalization — 91**

Irfan Haider, Muhammad Attique Khan, Ghassen Ben Brahim,
Nazeeruddin Mohammad, Saddam Rubab, and Mohammed Wasim Bhatt

- 6 Toward a sustainable future: a computational intelligence fusion framework of color and darknet features for the classification of crop leaf diseases — 109**

Kamini Lamba, Shalli Rani

- 7 Sustainable computing approaches for complex medical image analysis: a neurodiagnostic perspective — 139**

Ekta Dixit and Shalli Rani

8 Sustainability with artificial intelligence: obstacles, opportunities, and research agenda — 161

Palvi Sharma, Shubham Gupta

9 Smart solutions to a sustainable future — 177

Shubham Gupta, Suhaib Ahmed, Palvi Sharma

10 Ethical issues in intelligent systems for sustainability — 195

Mohammad Kamrul Hasan, AKM Ahasan Habib, Shayla Islam, Imran Memon

11 CPS: cyber-physical system security for the Industrial Internet of Things in smart grid — 215

Vandana, Chetna Sharma

12 Integrating mathematical computing and deep learning for efficient monkeypox skin lesion detection: A pathway to sustainable health solutions — 253

Deepali Gupta, Shalli Rani, Mudita Uppal

13 Leveraging heuristics based on CK Metrics Suite for quality enhancement in sustainable quantum software development — 271

Ahmed Mateen Buttar, Muhammad Anwar Shahid, Sadaf Naz,
and Azeem Akbar

14 Intelligent systems for fire management and sustainability — 297

Kamini Lamba and Shalli Rani

15 Transparent and sustainable AI for brain tumor detection: from conventional to hybrid models in predictive healthcare — 323

Index — 349
