

Contents

About the series — V

List of contributing authors — IX

Chandra Mohan, Neeraj Kumari, Asha Anish Madhavan,
and Mark Anthony Benvenuto

Chapter 1

Introduction to green chemistry and sustainable materials — 1

Priya Breitener, Lalitha Jawahar, Seema Panicker,
and Shaikha S. Al Neyadi

Chapter 2

Methods for synthesizing green materials — 21

Anita Singh, Chandra Mohan, Chhagan Lal, and Jaspal Singh

Chapter 3

The role of solvents and catalysts in green chemistry — 55

Namita Das, Manjusha Panthanal, and Geetha Kannan

Chapter 4

Overview of biopolymers for sustainable environment — 97

Basant Kumar Singh, Panmei Gaijon, Sudipta Ghosh,
M. Ramananda Singh, Ranjana Dixit, Neeraj Kumari, Jitendra Kumar, and Arun Kant

Chapter 5

Integrated technologies for environmental remediation by using green materials — 117

M. Sirija, G. B. Dharma Rao, Anjaneyulu Bendi, Chandra Mohan,
and Prem Lata Meena

Chapter 6

Plastic waste management: a sustainable practice for green future — 145

Jyotsna Sharma, Ansh Kumar, Chandra Mohan, and Lata Vodwal

Chapter 7

Data-driven approaches for aligning nanopackaging innovations with Sustainable Development Goals (SDGs) — 167

Sarika, Karan Gehlot, Prawar, Chintan Singh, Dayawati

Chapter 8

Value-added materials: Solar energy applications — 203

Sayan Chatterjee, Deepak Rathod, Shivangi Yadav, Md. Muktasir Rohman,
Annu Yadav, and Chandra Mohan

Chapter 9

**Case studies demonstrating sustainable development for green chemistry
approaches — 219**

Priyanka Kumari, Neeraj Kumari, and Noushi Zaidi

Chapter 10

Latest technologies and future perspectives in green materials — 257

Pooja, Nandini Pabreja, Aman Maurya, Laishram Saya,
and Ajay Kumar Mishra

Chapter 11

Greener approach for next generation materials: Biofuel, biorefinery — 283

Hema Kundra, Ambika Tundwal, Archana Dagar, Himani,
and Chandra Mohan

Chapter 12

**Utilization of fly ash for a sustainable environment: Innovations in waste
management, construction, and renewable energy applications — 299**

Rishi Raj, Shivakshi, Anil Kumar, and Gaurav Khandelwal

Chapter 13

**Environmental risk assessment of green material: A circular economy
approach — 321**

Sandhya Mangla, Shalini Sharma, Yogendra Kumar Rajoria, and Meenakshi Gusain

Chapter 14

**A framework for analyzing growth, competition, and environmental impacts:
A forest population dynamics through modelling — 345**

Index — 357
