Contents

Vignesh Krishna Vajha, Bryan Bovas Mathew, and Ruchi Jakhmola Mani
Chapter 1
Emerging Cyber Threats: Challenges, Impacts, and Proactive Defenses in the Digital Age —— 1

Dr. P. Aruna, Hasika B., Ramalakshmi S., Thabitha P., and Varnasri K.
Chapter 2
Silent Guardians: Proactive Approaches to Modern Cyber Threats —— 31

Bryan Bovas Mathew, Vignesh Krishna Vajha, and Ruchi Jakhmola Mani
Chapter 3
Data Science for Threat Detection and Analysis —— 59

Dr. Jeevesh Sharma
Chapter 4
An Integrated Approach: Merging Cybersecurity, AI, and Threat Detection —— 87

Dr. R. Pushpa Lakshmi and Dr. V. E. Jayanthi
Chapter 5
Cybersecurity Analytics: A Review of Challenges and the Role of Machine Learning and Deep Learning in Threat Detection —— 103

Sangeetha Rajaram, Satyanarayana Vollala, Ramasubramanian N., Kokila J.
Chapter 6
Hardware-Based Authentication Techniques for Secure Data Transmission in IoT Edge Computing —— 141

Suneel Miriyala, K. Rajesh Kumar, P. Surendra Kumar,
and P. Sarath Chandra
Chapter 7
Securing the IoT Networks Using a Deep Learning Paradigm for Intrusion Detection —— 161

Deepika Sharma and Manoj Devare
Chapter 8
Hybrid Malware Detection and Classification Using Explainable Deep Neural Network —— 177

Chigurubattula Jatin, Pankam Sasaank, Jyothi Rahul Enrique,
and Kunta Sai Siddartha
Chapter 9
Light POW for Smart Grid Communication —— 201

Varre Komal Krishna Shashank
Chapter 10
Zero Trust Architecture – A Beginner's Guide —— 227

J. Angel Ida Chellam, R. Kowsalya, R. S. Ramya, and S. Senthilkumar
Chapter 11
Post-quantum Cryptography for Enhanced Authentication in Mobile Data Communication: Resilience Against Quantum Attacks —— 265

J. Viji Gripsy, M. Sowmya, S. Meera, and T. Thendral
Chapter 12
Two-Factor Authentication (2FA) and Multi-factor Authentication (MFA) Solutions for Secure Mobile Data Communication —— 287

S. Hemalatha, R. Thangarajan, K. Sakthivel, and K. Karthikeyan
Chapter 13
Artificial Intelligence and Machine Learning in Cybersecurity —— 313

Sreelakshmi R. and Goutam Mali
Chapter 14
Enhancing IoT Security with Zero Trust Networking: Protecting Wireless Sensors, Edge Devices, and Cloud Environments —— 343

K. Jothimani, S. Thangamani, D. Kiruthika, and R. Saranya
Chapter 15
Biometric Authentication Methods for Mobile Devices: Exploring Fingerprint, Face Recognition, and Iris Scanning —— 365

Satyam Das, Risa Deshwal, Anbarasi M., and Siva Shanmugam G.
Chapter 16
Robust Dynamic Voice-Based Key Generation Using Novel Fuzzy Extraction, Averaged Thresholding, and Hamming Enhancement Techniques —— 385

Radhakrishnan Maivizhi and Palanichamy Yogesh
Chapter 17
Enhancing Cybersecurity with Artificial Intelligence and Machine Learning Techniques —— 413

Lamia Hamza
Chapter 18
Firewall and IDS in Cybersecurity —— 439

Index —— 459
