

CONTENTS

vii

1.3.4.2. Are all regular word formation processes word-based?	32
1.3.4.3. Morpheme-deleting WF-rules or Truncation Rules? ...	39
1.3.4.4. The bases of WF-rules	44
1.3.4.5. Concluding remarks on Aronoff's theory	45
1.3.5. Summary of conclusions	45
1.4. Word formation and flexion	46
1.4.1. The separation of derivation and flexion	46
1.4.2. Halle's theory of flexion rules	49
1.4.3. Flexion rules in Jackendoff's theory	50
1.4.4. Lexical insertion and Bresnan's Nuclear Stress Rule	51
1.4.5. Psychological objections?	52
1.4.6. Summary of conclusions	53
1.5. Summary of conclusions of Chapter 1	53
2. <i>Phonological evidence for non-phonological properties of complex words</i> .	55
2.1. The stress patterns of simplex words and compounds	56
2.1.1. Stress and stress differentiation	57
2.1.2. The Main Stress Rule	58
2.1.3. Exceptions and morphological features	62
2.1.4. The Alternating Stress Rule and the problem of minor rules .	67
2.1.5. The stress patterns of compounds	70
2.2. Affixes and their boundaries	72
2.2.1. Suffixes and their boundaries	72
2.2.1.1. Syllabification rules	75
2.2.1.2. Schwa-deletion	81
2.2.1.3. A special class of stress-shifting adjectival suffixes	82
2.2.1.4. Schwa-insertion in complex words	85
2.2.1.5. Boundary weakening	87
2.2.1.6. A first summary and some residual problems concerning the classification of derivational suffixes	90
2.2.1.7. The introduction of boundary symbols	91
2.2.1.8. The boundary of inflectional suffixes	93
2.2.1.9. Summary of conclusions	97
2.2.2. Prefixes and their boundaries	97
2.2.2.1. Underlying stress in affixes	104
2.2.2.2. The ordering of prefixation and stress rules	104
2.2.3. Summary of conclusions	107

2.3. Vowel reduction and the structure of complex words	108
2.3.1. Vowel reduction in simplex words	110
2.3.2. Vowel reduction in complex words	113
2.3.3. Brame's Natural Bracketing Hypothesis	114
2.3.4. Vowel reduction and style differences	117
2.3.5. Summary of conclusions	118
2.4. Summary of Chapter 2	119
3. <i>Competence restrictions on the productivity of word formation rules</i> ..	120
3.1. Conditions on the bases of WF-rules	122
3.1.1. Conditions on the phonological form of bases	122
3.1.2. Morphological conditions on bases	127
3.1.2.1. Conditions with respect to the presence of specific morphemes in bases	127
3.1.2.2. Conditions with respect to the complexity of bases	128
3.1.2.3. Conditions with respect to stratal features of morphemes in bases	131
3.1.3. Syntactic conditions on bases	140
3.1.4. Summary of conclusions	142
3.2. Some other general principles of the Word Formation Component ...	143
3.2.1. Extrinsic ordering of WF-rules	143
3.2.2.1. The organization of the English Word Formation Component	146
3.2.2.1.2. The organization of the Dutch Word Formation Component	147
3.2.2. Recursive application of WF-rules	153
3.3. Concluding remarks	155
<i>Notes</i>	157
<i>Bibliography</i>	169
<i>Index</i>	177
