Studies in Generative Grammar

Editors' introduction

The goal of Studies in Generative Grammar is to publish those texts that are representative of recent advances in the theory of formal grammar. Too many studies do not reach the public they deserve because of the depth and detail that make them unsuitable for publications in article form. We hope that the present series will make these studies available to a wider audience than has been hitherto possible.

Jan Koster Henk van Riemsdijk This book has been originally published by the Peter de Ridder Press.
