

Contents of Volume 3 (1983)

Number 1. 1983

K. H. STEINKRAUS: Traditional Food Fermentations as Industrial Resources (Eng.)	3
J. D. SCHNEIDER, R. HÄNSEL, R. HEDLICH and M. JECHOREK: Growth Characteristics of a Thermotolerant Strain of <i>Lodderomyces elongisporus</i> grown on Sucrose (Eng.)	13
K. H. HOFMANN and W. BABEL: Methylglyoxal—a toxic Fermentation Product (Ger.)	21
M. P. LAITE: Changes of the Genetic Patterns and Microevolutional Processes under the Conditions of an intensive Lysine Production at some Strains of <i>Brevibacterium</i> (Russ.)	27
S. ILIEWA, IW. STOJANOW and P. WELONOW: Effect of the Chemical Insecticide Fekamatribufon EC 50 on Agriculatural Pesticides obtained from <i>Bacillus thuringiensis</i> (Ger.)	33
A. LEUCHTENBERGER, A. TÄUFEL and H. RUTTLOFF: Production and Characterization of Proteases of <i>Thermoactinomyces vulgaris</i> (Ger.)	39
Z. LIBUDZISZ, H. OBERMAN and K. MALIK: Overproduction of Aminoacids and the Activity of Methanol Dehydrogenase of <i>Protaminobacter thiaminophagus</i> Mutants (Eng.)	49
A. OPOKU and N. URAIH: Saccharification of Cassava (<i>Manihot esculenta</i>) with Millet Amylase (Eng.)	53
E. W. JWANNY and M. M. RASHAD: Sugar Compositions of Extra- and Intracellular Polysaccharides produced by <i>Candida lipolytica</i> (4124) grown on n-Hexadecane (Eng.)	59
V. W. OGUNDERO: Factors affecting Growth and Cellulose Hydrolysis by the Thermotolerant <i>Aspergillus nidulans</i> from Composts (Eng.)	65
S. KONÉ and U. BEHRENS: The Maintenance Metabolism and the "maximum" Yield Value (Ger.)	73
S. KONÉ and U. BEHRENS: Meaning of the True Maximum Specific Growth Rate (Ger.)	76
A. SCHMIDT, D. KUCHENBECKER and H. DÄBERITZ: Preliminary Results in the Fluorometric Investigation of Fermentation Processes (Eng.)	79
B. HEINRITZ, P. STOLL and F. GLOMBITZA: Heat Flow Measurements in Aerobic Microbial Growth Processes with a Nonisothermal Calorimeter operating directly (Eng.)	83
H. BOCKER and R. D. RECKNAGEL: A new Biometrical Screening Method as applied to Nutrient Optimization in Fermentation (Eng.)	89
H.-P. SCHMAUDER, D. GRÖBER and W. BADE: Construction of Bioreactors suited for the Cultivation of Plant Cells (Ger.)	93

Number 2. 1983

J. P. MARTÍNEZ, E. GARAY, E. ALCAIDE and E. HERNÁNDEZ: The Genus <i>Thiobacillus</i> : Physiology and Industrial Applications (Eng.)	99
B. HEINRITZ, G. ROGGE, E. STICHEL and TH. BLEY: Use of Biorhythmic Processes for Increasing the Efficiency of Carbon-Compound Conversion by Microorganisms (Eng.)	125
H. LUTHER, A. CLAUS, W. BÜTTNER and E. SCHUSTER: Separation of mechanically disrupted Yeast Cells (Ger.)	133
U. ISKE, CH. GWENNER, M. BULLMANN, G.-J. UHLENHUT and G. SCHINDLER: Kinetics of Mixed Substrates at Citric Acid Accumulation by <i>Saccharomycopsis lipolytica</i> EH 59 (Ger.)	143
N. V. SEDYKH and I. M. CHIRKOV: Electrophysical Methods of Monitoring Biosynthesis (Eng.)	155
E. DANIELOVÁ, V. FARKAŠ and Š. BAUER: Enzymatic Hydrolysis and Ethanol Fermentation of Lignocellulosic Materials (Ger.)	163
A. SCHMIDT: The Technological Possibilities for Measuring of Physiological Population State Features in Fermentation Practice (Eng.)	171

LE DINH PHAI: Biochemical and Microbiological Aspects of the "Nuoc-mam" Industry in Vietnam (Ger.)	177
D. HAFERBURG and H. P. KLEBER: Regulation of the extracellular Lipase from an Alkan Utilizing Strain of <i>Acinetobacter</i> (Ger.)	185

Number 3. 1983

A. MOSER: Formal Macroapproach to Bioprocessing-Modeling with Analogies (Eng.)	195
S. K. SEN, M. CHATTERJEE, S. P. CHATTERJEE, A. K. BANERJEE: Activity of Diaminopimelic Acid Decarboxylase in Bacteria Producing Lysine (Eng.)	217
E. EMANUILOVA, A. KAIMAKTCHIEV: Production of Neutral and Alkaline Proteases in Batch and Chemostat Cultures by <i>Bacillus mesentericus</i> 76 (Eng.)	221
M. RINGPFEIL: SCP-Production on the Basis of Hydrocarbons (Ger.)	227
N. B. GRADOVA, E. M. DIKANSKAYA, S. N. ROBYCHEVA, G. S. RODIONOVA, M. B. BITTEYEVA, A. I. SAYKINA: Characteristics of Yeast Strains for the Production of SCP on the Basis of Petroleum Hydrocarbons. Specific Growth Properties and Biosynthesis of Protein (Russ.)	241
H.-P. KLEBER, R. CLAUS, O. ASPERGER: Enzymology of the n-Alkane Oxydation at <i>Acinetobacter</i> (Ger.)	251
C. ANTHONY: Methanol Oxidation and Growth Yields in Methylootropic Bacteria: A Review (Eng.)	261
Y. A. TROTSENKO: Metabolic Features of Methane- and Methanol-Utilizing Bacteria (Eng.)	269
H. J. REHM, L. HORTMANN, I. REIFF: Regulation of the Formation of Fatty Acids at the Microbial Oxidation of Alkanes (Ger.)	279
U. ISKE, H.-J. ROST, S. PORTIUS: A Laboratory Fermentor System for Basic Research in Biotechnology. I. Machine Equipment (Ger.)	289
D. C. DAN, K.-I. LINOW, B. PHILIPP, G. SCHULZ, E. W. UNGER: Morphometrical Analysis of the Enzymatic Hydrolysis of Cellulose (Ger.)	293

Number 4. 1983

J. C. SENEZ: Developments in the Field of Protein Enrichment of Foods and Feeds (Eng.) .	299
T. B. KORONELLI: Penetration of Hydrocarbons into Bacteris Cells (Russ.)	309
O. ASPERGER, R. MÜLLER and H.-P. KLEBER: Isolation of Cytochrom P-450 and the corresponding Reductase System from <i>Acinetobacter</i> (Ger.)	319
S. FUKUI and A. TANAKA: Peroxisomes of Alkane-Utilizing Yeasts Methabolic Functions and Practical Aspects (Eng.)	327
J. P. VANDECASTEELE, D. BLANCHET, J. P. TASSIN, A. M. BONAMY and L. GUERRILLOT: Enzymology of Alkane Degradation in <i>Pseudomonas aeruginosa</i> (Eng.)	339
K. SATTLER and L. WÜNSCHE: Possibilities of Obtaining Coupled Products of the Microbial SCP Production on Basis of Hydrocarbons (Ger.)	345
W. BRENDLER, J. BAUCH, G. A. LÜBBERT, L. WÜNSCHE, R. HEDLICH, K. TRIEMS, E. N. SHDANNIKOWA: Special Aspects of Nonsteril Yeast Production on Basis of Hydrocarbons (Ger.)	351
J. D. SCHNEIDER, E. FAULHABER and M. RINGPFEIL: Influence of the Ions Cu ²⁺ , Zn ²⁺ and Mn ²⁺ on Macromolecular Composition of the Yeast <i>Candida utilis</i> M 72 (Ger.)	357
V. A. VAVILIN: Criterion for Aerobic Biological Treatment Design (Eng.)	363
D. HAFERBURG, O. ASPERGER, U. LOHS and H.-P. KLEBER: Regulation of the Alkan Utilization by <i>Acinetobacter calcoaceticus</i> (Ger.)	371
J. ENGEL, A. STEUDEL and K. SATTLER: Investigations on Genetic of Methylorophic Bacteria (Ger.)	375
H.-P. SCHMAUDER and D. GRÖGER: Selection and Characteristics of potential Alkaloid Producing Strains of <i>Claviceps</i> (Ger.)	379

"Acta Biotechnologica" publishes reviews, original papers, short communications and reports out of the whole area of biotechnology.

The journal shall promote the foundation of biotechnology as a new, homogeneous scientific field. According to biotechnology are microbial technology, biochemical technology and technology of synthesizing and applying of bioanalogous reaction systems.

The technological character of the journal is guaranteed thereby that microbial, biochemical, chemical and physical contributions must show definitely the technological relation.

Terms of subscription for the journal "Acta Biotechnologica"

Orders can be sent

- **in the GDR:** to Postzeitungsvertrieb or to Akademie-Verlag,
DDR - 1086 Berlin, Leipziger Str. 3—4;
- **in the other socialist countries:** to a book-shop for foreign languages literature
or to the competent news-distributing agency;
- **in the FRG and Berlin (West):** to a book-shop or to the wholesale distributing
agency Kunst und Wissen, Erich Bieber OHG, Wilhelmstr. 4—6, D - 7000 Stuttgart 1;
- **in the other Western European countries:** to Kunst und Wissen, Erich Bieber GmbH,
Dufourstr. 51, CH - 8008 Zürich;
- **in other countries:** to the international book- and journal-selling trade, to Buchexport,
Volkseigener Außenhandelsbetrieb der DDR, DDR - 7010 Leipzig, Postfach 160,
or to Akademie-Verlag, DDR - 1086 Berlin, Leipziger Str. 3—4.

Acta Biotechnologica

Herausgeber: Institut für technische Chemie der AdW,

DDR - 7050 Leipzig, Permoserstr. 15

(Direktor: Prof. Dr. Manfred Ringpfeil) und

Institut für Technische Mikrobiologie

DDR - 1017 Berlin; Alt-Stralau 62

(Direktor: Dipl. Ing. G. Vetterlein).

Verlag: Akademie-Verlag, DDR - 1086 Berlin, Leipziger Straße 3—4;

Fernruf: 2236221 und 2236229; Telex-Nr.: 114420; Bank: Staatsbank der DDR, Berlin,

Konto-Nr.: 6836-26-20712.

Redaktion: Dr. Lothar Dimter (Chefredakteur),

Martina Bechstedt (Redakteur),

DDR - 7050 Leipzig, Permoserstr. 15; Tel.: 23 92 255.

Veröffentlicht unter der Lizenznummer 1671 des Presseamtes beim Vorsitzenden des Ministerrates der Deutschen Demokratischen Republik.

Gesamtherstellung: VEB Druckhaus „Maxim Gorki“, DDR - 7400 Altenburg.

Erscheinungsweise: Die Zeitschrift „Acta Biotechnologica“ erscheint jährlich in einem Band mit 4 Heften. Bezugspreis eines Bandes 120,— M zuzüglich Versandkosten; Preis je Heft 30,— M.

Bestellnummer: 1094/3.
