

## Contents

Preface . . . . .	7
Part I <i>Non-Neoplastic Manifestations of Late Radiation Pathology</i> . . . . .	12
Chapter 1   Alterations induced by Whole-Body Irradiation	12
Chapter 2   General Characteristics and Peculiarities of Late Radiation Pathology attributed to Partial-Body Irradiation . . . . .	51
Chapter 3   Mechanisms of Development of Non-Neoplastic Forms of Late Radiation Pathology . . . . .	66
Part II <i>Neoplastic Manifestations of Late Radiation Pathology</i> . . . . .	85
Chapter 4   Pathogenesis of Radiogenic Neoplasms . . . . .	85
Part III <i>Foundations for Prophylaxis of Late Radiation Pathology and Therapy of Radiation Injuries</i> . .	102
Chapter 5   Prophylaxis and Therapy of Non-Neoplastic Forms of Late Radiation Pathology . . . . .	103
Chapter 6   Prophylaxis of Radiation Blastomogenesis . . .	119
Chapter 7   Prophylaxis against Life-Shortening Disorders in Irradiated Biological Objects . . . . .	124
Conclusions . . . . .	135
References . . . . .	139
Subject Index . . . . .	153
