

Table of Contents

1. Knowing in Algorithmic Regimes: An Introduction 7
Juliane Jarke, Bianca Prietl, Simon Egbert, Yana Boeva, and Hendrik Heuer

I. METHODS

2. Revisiting Transparency Efforts in Algorithmic Regimes 37
Motahhare Eslami and Hendrik Heuer
3. Understanding and Analysing Science's Algorithmic Regimes: A Primer in Computational Science Code Studies 57
Gabriele Gramelsberger, Daniel Wenz, and Dawid Kasprowicz
4. Sensitizing for Algorithms: Foregrounding Experience in the Interpretive Study of Algorithmic Regimes 79
Elias Storms and Oscar Alvarado
5. Reassembling the Black Box of Machine Learning: Of Monsters and the Reversibility of Foldings 103
Juliane Jarke and Hendrik Heuer
6. Commentary: Methods in Algorithmic Regimes 127
Adrian Mackenzie

II. INTERACTIONS

7. Buildings in the Algorithmic Regime: Infrastructuring Processes in Computational Design 141
Yana Boeva and Cordula Kropp
8. The Organization in the Loop: Exploring Organizations as Complex Elements of Algorithmic Assemblages 163
Stefanie Büchner, Henrik Dossdall, and Ioanna Constantiou

9. Algorithm-Driven Reconfigurations of Trust Regimes: An Analysis of the Potentiality of Fake News	187
<i>Jörn Wiengarn and Maike Arnold</i>	
10. Recommender Systems beyond the Filter Bubble: Algorithmic Media and the Fabrication of Publics	207
<i>Nikolaus Poechhacker, Marcus Burkhardt, and Jan-Hendrik Passoth</i>	
11. Commentary: Taking to Machines: Knowledge Production and Social Relations in the Age of Governance by Data Infrastructure	229
<i>Stefania Milan</i>	

III. POLITICS

12. The Politics of Data Science: Institutionalizing Algorithmic Regimes of Knowledge Production	241
<i>Bianca Prietl and Stefanie Raible</i>	
13. Algorithmic Futures: Governmentality and Prediction Regimes	265
<i>Simon Egbert</i>	
14. Power and Resistance in the Twitter Bias Discourse	287
<i>Paola Lopez</i>	
15. Making Algorithms Fair: Ethnographic Insights from Machine Learning Interventions	309
<i>Katharina Kinder-Kurlanda and Miriam Fahimi</i>	
16. Commentary: The Entanglements, Experiments, and Uncertainties of Algorithmic Regimes	331
<i>Nanna Bonde Thylstrup</i>
