Chlorine-Induced High Temperature Corrosion:

I. Metals and Alloys - A Review

V.A.C. Haanappel, T. Fransen and P.J. Gellings..... 67

Chlorine-Induced High Temperature Corrosion:

II. The Tedmon Equation as a Theoretical Approach of the Kinetics

V.A.C. Haanappel, T. Fransen and P.J. Gellings..... 91

A Sensor for Sulfur Gas Based on Silver β -Alumina

S. Kano, Y. Waseda, M. Iwase and K.T. Jacob 101

A Thermodynamic Interpretation of the Zonal Arrangement of Minerals in the Bedded Manganese Deposits of the Noda-Tamagawa Mine, Japan

S. Kano, Y. Waseda and K.T. Jacob 107

The Determination of Electronic Transport Properties in Molten Sodium Sulfate at 1173 K

D.-H. Kim and G. Simkovich..... 119

A Method for Creating Predictable Conditions in High Temperature Reactive Gases

E.B. Makovos and C.-C. Liu 127
