

High Temperature Materials and Processes

Volume 13, No.2

1994

CONTENTS

	Page
Fatigue Crack Growth Behavior of a Shielded Metal Arc Welded (SMAW) Structural Steel Weldment	
S.K. Putanunda, A. Sengupta and J. Schaefer	113
Application of the Corresponding-States Correlations to the Viscosity and Self-Diffusivity of Various Metallic Liquids	
T. Iida, Y. Kita, T. Tsuji and M. Ueda	127
Small Angle X-Ray Scattering Study for Determining the Particle Size of Colloidal Materials	
A. H. Shinohara, K. Sugiyama and D. Shindo	133
Thermal Pressure Coefficients of Liquid 3d Transition Metals Using the One-Component Plasma Reference System	
T. Arai, S. Naito and I. Yokoyama	141
The Preparation of Thin Alumina Films by Metal-Organic Chemical Vapour Deposition: A Short Review	
V.A.C. Haanappel, H.D. van Corbach, T. Fransen and P.J. Gellings	149
Potential Nb Base Superalloys	
F. Saint-Antonin and A. Mitchell	159
Surface Modification of Metals by Using the Combustion Flame of $O_2 - C_2H_2$	
Y. Shibuya	173
