

High Temperature Materials and Processes

Volume 13, No.3

1994

**Special Issue: Selection of Papers
Presented at the Conference
"Advanced Materials and Processes"
held in Cracow, Poland, 3-4 June, 1993**

CONTENTS

	Page
Phase Transformations in Amorphous Solids	
L. Stoch and I. Wacławska	181
Thermodynamics of the System CaO–Al₂O₃	
G. Róg and A. Kozłowska-Róg	203
Defect Structure of Nonstoichiometric Compounds – Verification Method	
A. Stokłosa	209
Electronic Transport in Highly Nonstoichiometric 3d Systems at Elevated Temperatures	
J. Molenda	229
The Influence of Yttrium on the Oxidation Behaviour of Fe-19Cr-5Al Alloy at High Temperatures: I. Oxidation Resistance	
J. Jedliński, B. Cohat and G. Borchardt	241
High Temperature Sulfidation of NiCoCrAl(Y) Alloys	
E. Godlewska, E. Roszczyńska and Z. Zurek	259
