

High Temperature Materials and Processes

Volume 13, No. 4

1994

CONTENTS

	Page
Thermal Diffusivities of Continuous Casting Powders for Steel at High Temperature Y. Waseda, M. Masuda, K. Watanabe and H. Shibata.....	267
Vanadic Hot Corrosion - Creep Interaction of Superalloy C 276 in the Temperature Range 650 - 750°C J. Swaminathan and S. Raghavan.....	277
The Separation of Aluminium from Iron via Chlorides N. Sato, L.R. Reyes, M.S.M. El-Eskandarany and M. Nanjo.....	299
Growth Conditions of Nb₃Si, α-Nb₅Si₃ and NbSi₂ Single Crystals from High-Temperature Metal Solutions and Properties of the Crystals S. Okada, K. Okita, K. Hamano and T. Lundstrom.....	311
Phase Relations and Mutual Solubility of the Sulfides in the Systems BaS-Y₂S₃ and MgS-Y₂S₃ M. Skrobjan, N. Sato, K. Yamada and T. Fujino	319
High Temperature Creep Behaviour of Silicon Carbide Particulate Reinforced Aluminium J. Cadek, H. Oikawa, V. Sustek and M. Pahutova	327
