

High Temperature Materials and Processes

Volume 14, No. 2

1995

CONTENTS

	Page
Damage Development Under Creep-Fatigue in a Titanium and a Superalloy T. Goswami.....	47
Can Thermal Barrier Coatings be Sealed by Metal-Organic Chemical Vapour Deposition of Silica and Alumina? V.A.C. Haanappel, J.B.A. Scharenborg, H.D. van Corbach, T. Fransen and P.J. Gellings.....	57
Grain Boundary Penetration of a Ni-Rich Melt in Tungsten Polycrystals V. Glebovsky, B. Straumal, V. Semenov, S. Sursaeva and W. Gust	67
Anomalous Scattering Factors near the Zn K Absorption Edge Estimated from the Absorption Coefficient Measurement of ZnFe_2O_4 K. Shinoda, K. Sugiyama and Y. Waseda	75
Applicability of Modified Diercks Equation with NIRM Data T. Goswami.....	81
Relationship between Recrystallization Kinetics and Rate of Creep Cavitation in Bubble Strengthened Tungsten O. Horacek.....	91
Fullerite-Diamond Transition Under Shock Loading A.A. Dityat'ev, O.G. Epanchintsev, A.E. Korneev and V.F. Nesterenko	97
Creep-Fatigue Life Prediction - A Ductility Model T. Goswami.....	101
Preparation of Zirconium and Hafnium Metal Powders Using Fused Salt Electrolysis J.C. Sehra, P.L. Vijay and C.K. Gupta.....	115
Growing Single Crystals of High-Purity Refractory Metals by Electron-Beam Zone Melting V.G. Glebovsky and V.N. Semenov	121
X-Ray Diffraction Study on the Structure of Liquid $\text{Li}_2\text{O-B}_2\text{O}_3$ K. Sugiyama, K. Nomura and S. Kimura	131
