

High Temperature Materials and Processes

Volume 15, Nos. 1-2

1996

CONTENTS

	Page
Effects of Chlorine and Alkali Chlorides on Corrosion of Silicon Carbide Based Ceramics in Combustion Environments M.J. McNallan, S.Y. Ip, C. Park, S.Y. Lee, P.P. Hsu and Y.S. Park.....	1
Primary Carbide and Nitride Precipitation in Superalloys Containing Niobium A. Mitchell, S.L. Cockcroft, C.E. Schvezov, A.J. Schmalz, J.-N. Loquet and J. Fernihough.....	27
The Effect of Pressure on Power Transfer in Electron Beam Remelting of Cylinders S.L. Cockcroft, D.W. Tripp and A. Mitchell.....	41
Graphitization of C/C Composites and their Cyclic Voltammograms in Dilute Sulfuric Acid H. Kanematsu, Y. Kuneida, J. Yokoi and T. Inoue, K. Murakami and T. Oki.....	63
Investigation of the Kinetics of Reduction of Iron Titanate (FeTiO_3) by Hydrogen A. Kapilashrami, I. Arvanitidis and Du Sichen.....	73
Effective Pair Potential of Liquid Ge and Sn Estimated from the X-Ray Structure Factor Data K. Omote and Y. Waseda	83
A New Creep-Fatigue Life Prediction Model T. Goswami.....	91
The Preparation of β Sialon from Kaolin by Carbonitrothermic Reduction F.S. Cinar, J.C.T. Van der Heijde, R.A. Terpstra and A. Tekin.....	97
The Preparation of Ferroboron and Ferrovandium by Aluminothermic Reduction O. Yücel, F. Cinar, O. Addemir and A. Tekin	103
Processes of Reductive Decomposition of APT above 400°C; Transformation of APT $\rightarrow$ KTB $\rightarrow \beta$-W in the Presence of K M. Mészáros, J. Neugebauer and F. Hange	111
The Production of Boron Carbide by Carbothermic Reduction G. Goller, C. Toy, A. Tekin and C.K. Gupta.....	117
Studies on the Formation of Silicon Nitride and Silicon Carbide from Rice Husk N. Kuskonmaz, A. Sayginer, C. Toy, E. Acma, O. Addemir and A. Tekin.....	123
Variation of the Atomic Arrangement in Liquid Silicon Near the Melting Point H. Ogawa, H. Sasaki and Y. Waseda	129
