

High Temperature Materials and Processes

Volume 15, No.4

1996

CONTENTS

	Page
A Thermodynamic Criterion for Selection of Gas Compositions for Diamond Deposition K.T. Jacob, N. Gundiah and A.G. Menon	223
On the Local Structure of Liquid from EXAFS Studies A.H. Shinohara, K. Omote, Y. Waseda and J.M. Toguri	237
Formation of Thin Oxide Films by Metal-Organic Chemical Vapour Deposition V.A.C. Haanappel, H.D. van Corbach, R. Hofman, R.W.J. Morssinkhof, T. Fransen and P.J. Gellings	245
Sulphite Capacities of CaO–Al₂O₃ Slags in the Temperature Range 1773-1848K E. Drakaliysky, R. Nilsson, D. Sichen and S. Scetharaman	263
Nitridation in the Processing and Preparation of Metals and Ceramics O. Addemir, A. Tekin and C.K. Gupta	273
Microstructural Refinement of Cast Ti48Al12W0.5Si Alloy by Static Heat Treatment E. Evangelista, W.J. Zhang, L. Francsconi, E. Ceri and S. Spigarelli	281
Distribution of Impurities, Alloying and Binder Elements in Rutile (TiO_{2-x}) Scales at High-Temperature Oxidation V.B. Voitovich	287
