

HIGH TEMPERATURE MATERIALS AND PROCESSES

Volume 29, No. 4

2010

TABLE OF CONTENTS

Strengthening Mechanism of S30432 Austenitic Heat-resistant Steel Lihui Zhu, Yujie Zhang, Songqian Xu, Qijiang Wang, Zhengran Lu, Anfang Qi	215
The Effects of Steady Magnetic Field on Solidification Microstructure and Distribution of Impurity Elements of Molten Carbon Steel Haichuan Wang, Zhiyou Liao, Hui Kong, Wangsheng Zhang, Zhenxing Yin and Shijun Wang	225
Analysis of a Heat Exchanger Coil Tube in a Petrochemical Reactor After Fire Serdar Karakas.....	233
Boronizing Effect on the Corrosion Behaviour of Chilled Cast Iron and AISI 1050 Steel M.Simsek, A.Calik, A.K.Yakut, S.Karakas, A.Duzgun, A.E. Ekinci, H.Yildiz, and N.Ucar.....	241
Distinct Photoluminescence Enhancement of Supercritical Water Reacted Tin Dioxide Wei-Lun Xu, Po-Tuan Chen, Michitoshi Hayashi and Ming-Yau Chern.....	247
Temperature Dependence of the Spontaneous Polarization and the Dielectric Susceptibility near the Phase Transitions in Ammonium Sulfate S.Sen, H. Yurtseven and D. Kavruk	259
Thermal and Electrochemical Behaviour of Na/Bentonite-Polyaniline Nanocomposite in Different Media S. Madakbas, K. Esmer and M.H. Ugur	269
Microstructural Analysis after Reheat Treatments and Long-Term Heating in Cast Nickel Base Superalloy, GTD-111 P.Wangayo, P.Suvanchai, N.Chuankrerkkul, V. Krongtong, A.Thuepoly and W.Homkrajai.....	277
Effects of Formaldehyde/Urea Mole Ratio, Panel Density, Shelling Ratio, and Waste Screen Dust on the Physical and Mechanical Properties, and Formaldehyde Emission of Particleboard Composite Bunyamin Sari, Gokay Nemli, Selahattin Bardak, Mehmet Baharoglu and Emir Zekovic	287
Effect of Si Addition on High Temperature Oxidation of Cu-20Ni-20Cr Alloy Z.Q. Cao, L. Yu, Y. Li and Y. Sun.....	295
Effect of Zirconia Addition on Crystallization Behaviour and Machinability of Potassium Mica and Fluorapatite Glass-Ceramics Ugar Ceylan, Ipek Akin, Gultekin Goller.....	305
Laser Surface Alloying of Nickel and Chromium (III) Electroplated Carbon Steel With Nd: YAG Laser M. Prince, P.Gopalakrishnan and G. Bhuvanashakaran	313
