

JOURNAL OF THE MECHANICAL BEHAVIOUR OF MATERIALS

VOLUME 14, NOS. 2-3

2003

TABLE OF CONTENTS

A Damage Accumulation Model of Fatigue Crack Growth in Titanium Carlos A.R.P. Baptista and Viktor A. Pastoukhov	73
A Micromechanical Model for the Optimization of a Class of Viscoelastic Short Fiber-Composites Y.M. Haddad and J. Feng	87
Small-Scale Adhesive Wear Behavior of Rough Solids in the Presence of Adhesion P. Sahoo and S.K. Roy Chowdhury	117
A Framework for the Analysis of Damaged Composite Materials Using the Homogenization Method Peter I. Kattan and George Z. Voyiadjis	129
Life Prediction of Service Exposed Tubes in a Boiler of a Thermal Power Plant A.K. Ray, Y.N. Tiwari, P.K. Roy, G. Das, and S. Chaudhuri	149
Environment-Assisted Cracking Behavior of Friction Stir Welded AA 2195 Lu Gan and Efstathios I. Meletis	163
The Influence of Concrete Ingredients on Shrinkage of High Performance Concrete Drago Saje, Joze Lopatic, and Franc Saje	173
Experimental Confirmation of Estimating Possibilities of Nitriding Layer Depth Through Electronic Noise Measurement D. Ursutiu, C. Samoila, A. Duta, W. Schleer, and M. Nanu	183
Simultaneous Analysis of the Chemical and Thermal Non-Equilibrium Regimes in Nitriding. Modelling in LabVIEW A. Duta, C. Samoila, D. Ursutiu, P. Cotfas, and W. Schleer	191
