

JOURNAL OF THE MECHANICAL BEHAVIOUR OF MATERIALS

VOLUME 16, NOS. 1-2

2005

Extended versions of papers presented at the 5th Euromech Solid Mechanics Conference
August 17-22, 2003, Thessaloniki, Greece

TABLE OF CONTENTS

Notched Marble Specimens Under Bending: Experimental Study and Numerical Analysis Using an Elastoplastic Model with Contact Elements	
Z. Agioutantis, S.K. Kourkoulis, S. Maurigiannakis, and E. Papatheodorou	1
Some Recent Developments in Fe-Modelling of Cracking in Concrete and Quasi-Brittle Materials	
C. Borri, L. Salvatori, and W. Zahlten	9
Influence of Rainfall on Slope Stability at Egnatia Highway, Asprovalta-Strymonas Part (Chainage 9+700)	
M. Chatziangelou and B. Christaras	21
Response Prediction for Axially Loaded Fixed Head Pile Groups	
E.M. Comodromos and S.V. Bareka	27
Projectile Penetration into Reinforced Concrete: Analysis of Interaction and its Experimental Verification	
M.M. Conrad	35
Micromechanical Analysis of the Rock Sanding Problem	
D. Garolera, C.M. López, I. Carol, and P. Papanastasiou	45
CAM-CLAY and Hydraulic Conductivity Diagram Relations in Consolidated and Sheared Clay-Matrices	
D. Gélard, P. Dudoignon, A. Pantet, and S. Sammartino	55
A Method for Inversion of Tunnel Closure Measurements – Application in the Tempi Railway Tunnel	
K.F. Giannakopoulos, M.C. Stavropoulou, and G.E. Exadaktylos	65
Using Damage Mechanics to Simulate the Behavior of Various Reinforced Concrete Walls Submitted to Earthquake Loading	
P. Kotronis and J. Mazars	75
Modeling Three-Point Bending of Rock-Type Materials Using an Elastoplastic Model with Contact Elements	
S.K. Kourkoulis, Z. Agioutantis, S. Maurigiannakis, and E. Papatheodorou	85
Fuzzy Analysis of Groundwater Resources Including Incomplete Data of Aquifer Spatial Extent	
K.N. Moutsopoulos, I.N. Chalkidis, and Ch.D. Tzimopoulos	95
Protection of Infrastructure Subjected to Rockfall	
B. Pichler, Ch. Hellmich, and H.A. Mang	103
Compressive Behaviour of Plain Concrete at Higher Strain-Rates	
George Solomos and Mario Berra	113
Fundamental Solution in the Theory of Consolidation with Double Porosity	
M. Svanadze	123
A Theoretical and Experimental Study of Rock Cutting	
M.C. Stavropoulou, K.F. Giannakopoulos, and G.E. Exadaktylos	131
