

# JOURNAL OF THE MECHANICAL BEHAVIOUR OF MATERIALS

VOLUME 16, NOS. 4-5

2005

Extended versions of papers presented at the 5<sup>th</sup> Euromech Solid Mechanics Conference  
August 17-22, 2003, Thessaloniki, Greece

## TABLE OF CONTENTS

<b>On the Lie Symmetry Groups with Application to a Non Linear Viscoelastic Behaviour</b> V. Magnenet, R. Rahouadj, J.F. Ganghoffer, and C. Cunat .....	241
<b>Discrete Models of Fabric – Effect of Yarn-Yarn Interactions</b> B.B. Boubaker, B. Haussy, and J.-F. Ganghoffer .....	249
<b>Generalized Solutions of Boundary Value Problems of Dynamics of Anisotropic Elastic Media</b> L.A. Alexeyeva and G.K. Zakiryanova .....	259
<b>The Use of Material Forces to Improve the Finite Element Solution in Elasticity</b> K.G. Balassas, V.K. Kalpakides, and G.E. Stavroulakis .....	269
<b>Measurement of Structural Intensity of a Shell Based on Finite Element Method</b> T. Oya and K. Ito .....	279
<b>Experiments on Nonlinear Vibrations of Graphite/Epoxy Composite Curved Panels</b> M. Amabili, S. Carra, R. Garziera, and M. Pellegrini .....	287
<b>Homogenization of Very Thin Elastic Reticulated Structures</b> J. Casado-Díaz, M. Luna-Laynez, and J.D. Martín .....	297
<b>Partial Fractional Differential Equations of Creeping and Vibrations of Plate and Their Solutions (First Part)</b> Katica (Stevanović) Hedrih .....	305
<b>A Simple Model on Dislocation Dynamics</b> V. Koukouloyannis, G. Stagika, S. Ichtiaroglou, I. Groma, and E. Aifantis .....	315
<b>The Calculation of Shear and Elastic Modulus for Solids</b> Jurij Avsec .....	325
<b>The Optimization of Cam Profile – The Development of NEWCAM and MULTICAM Profile</b> Jurij Avsec and Maks Oblak .....	335
<b>Limit Strains for Severe Accident Conditions Applicable for Nuclear Power Plants</b> R. Kieselbach and R. Krieg .....	345
