

INDICES

Name Index	151
Object Index	154
Subject Index	156

If a page number is underlined in the Name Index it indicates the name of an author of a paper. An underlined page number in the Object or Subject Indices indicates that the object or subject was mentioned in the title of a paper. Underlined page numbers of institutions are the institutions of authors of papers. Subjects that are mentioned in major headings may be listed in the index but their page numbers are not underlined.
