PROCEEDINGS OF THE FOURTH WET WORKSHOP, JULY 21-25, 1997

*(Continued from Baltic Astronomy, Vol. 7, No. 1)*

- A. Kanaan, S. O. Kepler et al. BPM 37093: the way to the interior of crystallized stars. . . . . 183
- M. H. Montgomery, D. E. Winget. A pulsational study of crystallized white dwarf stars. . . . . 197
- A. Nitta, S. O. Kepler et al. HST observation of GD 358 . . . . . 203
- M. Breger. XCOV13 and asteroseismology of Delta Scuti stars . . . . . 211
- G. Handler. Methodological aspects of Delta Scuti star seismology . . . . . 227
- A. Stankov, W. Zima. Photometry of Delta Scuti star FG Vir during the 1995 multi-site campaign . . . . . 243
- J. C. Simpson, M. A. Wood, Ch. J. Burke. The effects of inclination angle on superhump pseudo-lightcurves. . . . . 255
- D. Semionovas. Modeling of the accretion disc spectra in AM CVn systems . . . . . 269
- J.-E. Solheim, J. L. Provencal. First attempt on discoseismology of AM CVn stars – what can the harmonic structure of the observed amplitude spectra tell us? . . . . . 277
- T. M. K. Marar, S. Seetha et al. The intermediate polar PQ Gem – status of WET observations of 1996. . . . . 287
- R. Silvotti, D. de Martino et al. HST/UV periodic variations in the intermediate polar FO Aqr. . . . . 293

*(Continued on back cover)*

VILNIUS, LITHUANIA

An international journal published by the Institute of Theoretical Physics and Astronomy (Vilnius, Lithuania) for astronomical institutions of the Baltic states. Sponsored by the Ministry of Education and Science of Lithuania.

Editorial Board:

R. P. Boyle, Vatican Observatory Research Group, Steward Observatory,  
Tucson, Arizona, U.S.A.

J. Frantsman, Institute of Astronomy, Riga, Latvia

B. Hauck, Astronomical Institute, Lausanne, Switzerland

R. Mitalas, Department of Astronomy, University of Western Ontario,  
London, Ontario, Canada

A. G. Davis Philip, Institute for Space Observations, Schenectady,  
New York, U.S.A. (Co-Editor)

I. Platais, Yale University Observatory, New Haven, Connecticut, U.S.A.

E. Saar, Institute of Astrophysics and Atmospheric Physics, Tõravere,  
Estonia

A. Sapar, Institute of Astrophysics and Atmospheric Physics, Tõravere,  
Estonia

V. Straizys, Institute of Theoretical Physics and Astronomy, Vilnius,  
Lithuania (Editor)

J. Sūdžius, Astronomical Observatory, Vilnius University, Vilnius,  
Lithuania.

BALTIC ASTRONOMY is published quarterly (4 issues per year). The journal publishes papers, catalogs, reviews and conference proceedings on all branches of astronomy. Papers from all countries with no page charge are accepted.

Editorial Office: Institute of Theoretical Physics and Astronomy, Goštauto 12, Vilnius 2600, Lithuania. Telephone 3702-613440, fax 3702-224694, e-mail: [straizys@itpa.lt](mailto:straizys@itpa.lt).

Orders should be sent to V. Straizys, Editorial Office.

Manuscripts in English should be sent to the Editorial Office. Instructions to authors are given at the end of each volume. Submitted articles will be subject to refereeing.

Indexed/abstracted in Astronomy and Astrophysics Abstracts (Heidelberg), Physics Abstracts, Referativny Zhurnal Astronomija (Moscow), Astrophysics Data System (Cambridge, U.S.A.), Stellar Data Center (Strasbourg).
