

## CONTENTS

---

### SPEAKERS ABSTRACTS

---

- S8 Opening Lecture - Forgiveness for Individual, Family, and Community Well-Being
- S9 EFLM Symposium - Inappropriate use of laboratory resources – Demand management tools and how to use them
- S12 IFCC Symposium - Artificial intelligence applications in clinical laboratory medicine
- S15 IFCC Symposium - Precision Medicine will boost Medical Test Standardization of Protein Biomarkers
- S19 Symposium 1 - MicroRNA: from detection technologies to applications
- S21 EFLM Symposium - Precision Medicine
- S23 Sibioc Symposium - Opportunities and challenges for digital morphology in Hematology
- S25 IFCC Symposium – Central Role of the Clinical Laboratory in Public Health and Patient Care Continuum
- S29 Debate - The use of cardiac biomarkers in risk stratification
- S31 Symposium 2 - COVID-19 diagnosis, therapy and outcome
- S33 Symposium 3 - Diagnostic Challenges in Sepsis
- S36 Symposium 4 - Towards the next generation of Laboratory Information Systems
- S39 Symposium 5 - Autoimmune Diseases
- S42 IFCC Symposium - Advancing Excellence in Laboratory Medicine Worldwide: An Update from IFCC Taskforces
- S45 Sibioc - Symposium - The challenge of harmonization in laboratory medicine
- S47 EFLM Symposium - Quality in clinical laboratory: a moving target
- S50 Clinical cases – Preanalytical mysteries
- S51 Clinical cases - Bone turnover markers + vitamin D
- S52 Symposium 6 - Preanalytical phase and patient outcome
- S55 Symposium 7 - Young Scientist Session
- S59 Symposium 8 - Bone as an endocrine organ
- S62 Symposium 9 - Translating biomarkers from research to clinical use in traumatic brain injury
- S63 Sibioc Symposium - The latest advances in diabetes clinical and laboratory research
- S66 EQALM Symposium - Insights into SARS-CoV-2 associated analytics that only EQA schemes can provide
- S70 Symposium 10 - Biomarkers of liver diseases
- S71 Symposium 11 - The role of clinical laboratory in kidney transplantation
- S74 Symposium 12 - Sources of interference in laboratory testing
- S77 Symposium 13 - Prenatal testing
- S80 Sibioc Symposium - Diagnostic workup of monoclonal gammopathies
- S82 Plenary 4 - Diagnostic advances in dementia

### EDUCATIONAL WORKSHOPS ABSTRACTS

---

- S83 EduW 4 – Monday 22 May – 14.30-15.30: SCD14-ST AND NEW GENERATION INFLAMMATORY BIOMARKERS
- S84 EduW 5 – Monday 22 May – 14.30-15.30: NEW TESTING SOLUTIONS TO ENHANCE PATIENT MANAGEMENT IN SPECIALIZED INFECTION SITUATIONS AT THE EMERGENCY DEPARTMENT ADMISSION
- S85 EduW 14 – Tuesday 23 May – 14.30-15.30: MACHINE LEARNING IN HEMATOLOGY AUTOMATION
- S86 EduW 15 – Tuesday 23 May – 14.30-15.30: THE IMPORTANCE OF FLC FOR DETECTING AND MONITORING MONOCLONAL GAMMOPATHIES

### POSTER ABSTRACTS

---

- S87 Accreditation, Quality Assurance
- S182 Analytical technologies and applications
- S324 Artificial intelligence
- S359 Atherosclerosis and lipid metabolism
- S400 Autoimmune Diseases
- S469 Cardiovascular diseases and cardiac biomarkers
- S563 COVID-19
- S771 Demand management
- S808 Dementia and neurological diseases
- S856 Diabetes, obesity, metabolic syndrome
- S968 Digital health, big data and smart technologies
- S987 Disorders of the bone metabolism and endocrine function of the bone
- S1015 Endocrinology
- S1116 Gastrointestinal diseases
- S1175 Green laboratories
- S1178 Hematology and hemostasis
- S1376 Inflammation, vascular biology, endothelium, and oxidative stress
- S1418 Kidney diseases and transplantation, urinalysis
- S1511 Laboratory Information Systems
- S1522 Laboratory Management
- S1568 MicroRNA
- S1588 Miscellaneous
- S1748 Molecular diagnostics
- S1852 Preanalytical phase
- S1925 Precision Medicine
- S1961 Prenatal and neonatal testing
- S2023 Sepsis
- S2060 Sources of interference in laboratory testing
- S2121 Traumatic brain injury
- S2131 Tumor markers

**Editor-in-Chief:** Mario Plebani, Padova, Italy

**Associate Editors:** Philippe Gillery (Reims, France); Ronda Greaves (Melbourne, Australia); Karl J. Lackner (Mainz, Germany); Giuseppe Lippi (Verona, Italy); Bohuslav Melichar (Olomouc, Czech Republic); Deborah A. Payne (Denver, CO, US); Peter Schlattmann (Jena, Germany)

**12 issues – 350 articles – 2500 pages per year**

**Impact Factor 2020: 8.490**

**AIMS & SCOPE:** *Clinical Chemistry and Laboratory Medicine (CCLM)* publishes articles on novel teaching and training methods applicable to laboratory medicine. It is focused on basic and applied research and cutting-edge clinical laboratory medicine. *CCLM* is one of the leading international journals in the field of clinical laboratory sciences and drives progress in the field. *CCLM* is led by a multi-institutional editorial board.

**AREAS COVERED INCLUDE:** Clinical biochemistry; Clinical genomics and molecular biology; Clinical hematology and coagulation; Clinical immunology and autoimmunity; Clinical microbiology; Drug monitoring and analysis; Evaluation of diagnostic biomarkers; Disease-oriented topics (cardiovascular disease, cancer diagnostics, diabetes); New reagents, instrumentation and technologies; New methodologies; Reference materials and methods; Reference values and decision limits; Quality and safety in laboratory medicine; Translational laboratory medicine; Clinical metrology .

**ARTICLE FORMATS:** Research Articles, Reviews, Mini Reviews, and Opinion Papers on all aspects of clinical chemistry and laboratory medicine, Guidelines and Recommendations, Point/Counterpoint Articles, Letters to the Editor, Editorials.

**EFLM:** *CCLM* is closely linked to the European Federation of Clinical Chemistry and Laboratory Medicine (EFLM) and publishes selected EFLM recommendations and EFLM news. All members of the EFLM Academy (<https://www.eflm.eu/site/page/a/1555>) have free access to the entire contents of *CCLM* (<https://www.eflm.eu/site/page/a/1558>)

#### Your benefits of publishing in *CCLM*

- High quality manuscript management through ScholarOne Manuscripts®  
<http://mc.manuscriptcentral.com/cclm>
- Speedy and high-quality peer-review
- Rapid publication times: max. 1.5 weeks from acceptance to online publication
- No submission and publication fee
- Optional [Open Access Publication](#)

Follow [@cclm\\_degruyter](#) on Twitter!

#### Free Access to *CCLM* for Conference Participants!

Congress participants will get free access to the journal *Clinical Chemistry and Laboratory Medicine (CCLM)* by registering on our platform [degruyter.com](https://www.degruyter.com) with the following passcode: **WorldLab23**. Simply go to <https://www.degruyter.com/login> and enter the passcode into the box on the right and Go. Once you have logged in successfully, enter <https://www.degruyter.com/journal/key/cclm/html#issues> in the search field to get access to the full contents of *CCLM*. **The offer is valid until July 31 2023.**
