IUPAC Accounts for 1996

J.M. Ward

Treasurer's comments

There was an unexpected addition to the Union's funds from Baring Brothers Bank. 'Office Internationale de Chemie', part of the Union when it was created in 1919, had never closed its account with the Bank and so the money plus accrued interest has been paid to us as successors, a sum of USD 343 780. Accountancy rules demand that this sum should go through the Income and Expenses account, so that the accounts show a surplus for 1996 of USD 634 470. But without the 'windfall' the surplus is still USD 290.7k, 129.7k better than budget, a result brought about largely by a Publications surplus of USD 60.8k over budget and an underspend of USD 29.6k on the Affiliate Membership Programme, both results due mainly to a reduction in staff, and so staff costs, during the year. A healthy number of smaller contributions make up the balances.

In 1997 there will be considerable unbudgeted expenses arising from the move of the Secretariat to the Research Triangle Park in North Carolina, as well as recognized additional expenses coming from the extra meetings called to discuss the possible changes to our objectives and methods of working, arising from recent decisions by Council and Bureau. So the 1996 surplus will help to keep what might have been a heavy biennial deficit within reasonable bounds.

Our reserves have increased substantially in value over the year, partly due to the Baring's money and partly due to a good return on our investments. Excluding the Building Fund which now stands at USD 439 605 and the Southern Hemisphere Sinking Fund, the available reserves increased from USD 2451k to USD 3093k during the year. During 1997 another USD 50k will be transferred from the main reserves to the Sinking Fund. The capital needed to equip the Secretariat offices in North Carolina will also be

Prof. J.M. Ward

Auditor's Report

The following is the Report of the Auditors to the IUPAC Executive Committee:

As auditors of the International Union of Pure and Applied Chemistry we have examined the books of account and accounts for the year ended 31 December 1996. Our audit was conducted in accordance with auditing standards promulgated by the profession. We confirm that we meet the legal requirements concerning professional qualification and independence.

Based on our examination, we conclude that the books of account and the accounts are in accordance with Swiss law and the requirements of the statutes.

We recommend that the accounts submitted to you be approved.

NEUTRA TREUHAND AC Zurich, 19 March 1997

taken from them. Even so, there are still substantial funds available for new initiatives of limited and defined lifetimes, which should arise from the current discussions. We should not be tempted to use the level of reserves as a reason for not keeping our national subscriptions in line with inflation as do all other organizations, companies and retailers.

In conclusion, the 1996 results fully confirm that our finances are now firmly under control and in sound order. We must all determine to keep them so and not slip back to what one might unkindly call the bad old ways.

Notes to Accounts

- 1. Accounting Policies
- a. Basis of Preparation of Financial Statements

The financial statements are prepared under the historical cost convention.

b. Tangible Fixed Assets and Depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided on all tangible fixed assets at rates calculated to write off the cost less estimated residual value of each asset on a straight-line basis over its expected useful life as follows:

Fixtures and fittings—over 5 years Computer hardware—over 5 years

c. Leasing Commitments

Rentals paid under operating leases are charged to the Income and Expenses account on a straight line basis over the period of the lease.

d. Foreign Currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the income and expenses account, except those incurred in investment transactions, which are taken direct to the balance sheet.

e. Investments

Interest on investment bonds is recognized on a receipts and not an accruals basis.

f. Committed Expenses

The IUPAC Council meets once every two years at the General Assembly to agree budgets for committee operations for the following two years. Starting in 1994, seventy per cent of the budgeted expenses is charged to the income and expenditure account in the first year following the General Assembly and thirty per cent in the General Assembly year.

g. Royalty Income

Royalty income is recognised in the income and expenditure account on a cash received basis.

h. Legal Status

The official headquarters of IUPAC are in Zürich, and the legal domicile of the Union is accepted by the Canton of Zürich as an association under Swiss Law. As such the Union is exempt from any taxation on any net income arising from its activities.

Commission on Biophysical Chemistry: An Introduction

The Commission on Biophysical Chemistry is a recent addition to the Physical Chemistry Division of IUPAC. It came into existence on 1 January 1996. As the chairman of this new Commission I welcome the opportunity to write an introductory note for Chemistry International. By way of introduction it is probably appropriate to give some historical background.

In 1975, IUPAC, IUB and IUPAB decided to create an inter-union Commission on Biothermodynamics. Ingemar Wadsö was chairman and G.T. Armstrong (USA), R.L. Biltonen (USA), J.T. Edsall (USA), H. Gutfreund (UK), W.P. Jencks (USA) and P. Privalov (USSR) were members of this commission. The aim of the commission was to produce guidelines for nomenclature and terminology in the field of biothermodynamics and to organize scientific meetings

to this end. In 1985 the Commission on Biothermodynamics was replaced by a 'Working Party on Biophysical Chemistry' which somewhat later was renamed 'Steering Committee on Biophysical Chemistry' (SCBC). This committee was incorporated in the Physical Chemistry Division of IUPAC and given a wider range of responsibilities. It reported to the Physical Chemistry Division Committee, but remained independent in as much as it was not attached to any of the com-
