CHEMISTRY International July-August 2003 Volume 25 No. 4

Vice President's Column	2
Features	
Camptothecin and Taxol: The Story Behind the Science <i>by Nicholas H. Oberlies, Sharla Flora, and Anna L. Weaver</i>	4
Striving for Open Access <i>by Wendy Warr</i>	7
Chemical Weapons Convention: First Major Review Completed <i>by Edwin D. Becker</i>	9
IUPAC Briefs Delegates to CWC Review Conference	10
IUPAC Wire	
IUPAC Announces Prize Winners	12
Highlights of the Executive Committee Meeting	13
IUPAC Funds Three Conferences to be Held in 2004 in Developing and Disadvantaged Countries	14
Bio-Unions to Pursue Science for Health and Well-Being	14
Methods of Analysis and Sampling of Food Products	15
IUPAC Elections	16
The Project Place	
NMR Chemical Shifts: Updated Conventions	23
Terminology for Radical Polymerizations with Minimal Termination	23
Toward a Core Organic Chemistry Curriculum for Latin American Universities	23
Rules for Stating When a Limiting Value is Exceeded	24
Provisional Recommendations	25
Making an imPACt	
Critical Evaluation of Stability Constants for α -Hydroxycarboxylic Acid Complexes with Protons and Metal Ions and the Accompanying Enthalpy Changes Part II: Aliphatic α -Hydroxycarboxylic Acids	26
Endocrine Disruptors in the Environment	26
Measurement of pH: Definition, Standards, and Procedures <i>reviewed by Friedrich G. K. Baucke</i>	27
Bookworm	
Natural Products	28
Molecular Order and Mobility in Polymer Systems	29
New Polymeric Materials	30
The Experimental Determination of Solubilities	30
Chemicals in the Atmosphere: Solubility, Sources and Reactivity	31
Photochemical Purification of Water and Air	31
Conference Call	
Safety in Chemical Production <i>by M. D. Booth</i>	32
Physiological Reference Values: A Shared Business <i>by Anders Kallner</i>	33
Where 2B & Y	35
Mark Your Calendar	38
