CHEMISTRY International September-October 2003 Volume 25 No. 5

Treasurer's Column 2

Features

- Science Communication for All *by Rainer Glaser* 3
- Role Models in Chemistry: Nelson Leonard *by Balazs Hargittai and István Hargittai* 7
- Why Become an Affiliate? *by Laura Abernathy* 9
- A New Look at Special Topics and an Evolving Policy for *Pure and Applied Chemistry* *by James Bull* 10

IUPAC Wire

- Element 110 is Named Darmstadtium 13
- Hendrik van Eck Medal Awarded to IUPAC President 13
- IOCD Marks 20th Anniversary by Presenting Pierre Crabbé Award to Three African Scientists 14
- The Chemical Society of Japan Celebrates 125 Years 15
- Mostafa El-Sayed Celebrates 70th Birthday *by Stephan Link* 16
- Reviewing Proposals for NSF Grants 17
- Letters from Readers 18

The Project Place

- Fundamental Toxicology for Chemists 19
- Organization of the Chemistry Clearing House 19
- Provisional Recommendations 20

Making an imPACt

- The Atomic Weights of the Elements: Review 2000 21
- Critical Review of Analytical Applications of Mössbauer Spectroscopy Illustrated by Mineralogical and Geological Examples 21
- Critical Assessment: Use of Supersonic Jet Spectrometry for Complex Mixture Analysis 22
- Significance of Impurities in the Safety Evaluation of Crop Protection Products 23

Bookworm

- Biodiversity: Biomolecular Aspects of Biodiversity and Innovative Utilization 24
- Genetically Modified Foods for Human Health and Nutrition: Basis for Benefit/Risk Assessment 24
- Chemical Education International* 25

Internet Connection

- The Science of Spectroscopy *by Stewart L. Mader* 27

Conference Call

- Heterocyclic Chemistry *by Lisa McElwee-White* 28
- Chromatography and Separations in Biosciences *by Vadim A. Davankov* 28
- Polymer Properties *by R. D. Sanderson* 29
- Macromolecule-Metal Complexes *by Edward Karakhanov and Anton Maksimov* 30
