

Contents

Alain PHAM NGOC DINH: Sur un problème hyperbolique faiblement non linéaire à une dimension	269—289
Janina KOTUS: A generic property of vector fields on open surfaces	291—302
Bożena Szkopińska, Janusz JASKUŁA: On some problem of Marcus Cz. BURNIAK, Z. LEWANDOWSKI, J. PITUCH: Sur l'application de la méthode homotopique et d'un critère d'univalence dans la classe des fonctions convexes vers l'axe imaginaire	303—308
D. SCHWEIGERT, M. SZYMAŃSKA: On functionally complete modal algebras related to M and S_4	309—322
Halina BRZOZOWSKA, Stanisław FUDALI: Homothetic coverings of trapezoids	323—328
B. GLEICHGEWICHT, M. B. WANKE-JAKUBOWSKA, M. E. WANKE-JERIE: On representations of cyclic n -groups	329—356
N. K. SHARMA, Asha SRIVASTAVA: Some transformations in non-symmetric Finsler spaces	357—365
NGUYEN VAN MAU: Characterization of polynomials in algebraic operators with constant coefficients	367—374
Anna POGORZELEC: Initial value problems for ill-determined linear systems with right invertible operators	375—405
Paweł KOWALSKI, Jan POCHCIAŁ: Remarks on convergence of sequence of point-to-set maps	407—420
Wiesława CHROMIK: The sum of a double system of graphs	421—427
Eftimie GRECU: Sur les sous-groupes à un paramètre du groupe semi-orthogonal	429—433
Henryk UGOWSKI: On weak solutions of a linear parabolic equation in a Hilbert space	435—440
Andrzej NOWAK: On generalized random differential equations	441—468
Bogusław GROCHOWSKI: Many-fold points of the projection of order 4 of a plane algebraic curve of order n	469—476
Bogdan RZEPECKI: A fixed point theorem for metric spaces	477—482
Stanisław JANEČKO: Geometrical approach to phase transitions and singularities of lagrangian submanifolds	483—486
Zbigniew PASTERNAK-WINIARSKI: Differential groups of class $\mathcal{D}_0$ and standard charts	487—502
Zygmunt PACHULSKI: The radius of convexity for certain subclass of starlike functions	503—517
Jan ROGULSKI: On the dependence of temperature and density on the velocity vector field in the motion of viscid gas	519—525
Andrzej MAKOWSKI: A cubic identity and its consequences	527—536
	537—539
