Konstanty RADZISZEWSKI: On some mappings of a principal bundle into its structural group	259—269
S. FUDALI, L. KACZMAREK, M. KŁECZEK: Affine motion in the recurrent SAK_n^* (I)	271—280
Wiesław A. DUDEK, Jacek MICHALSKI: On retracts of polyadic groups	281—301
Czesław LOSTER: On some boundary value problem for the equation $\Delta u(X) - c^2 u(X) = 0$	303—321
Zdzisław Mathia: 0 стабильных отображениях бикомпактов несчетного веса	323—330
Janina EWERT: On barely continuous and cliquish maps	331—338
Andrzej SŁUZAŁEC: Some remarks on projection methods	339—353
Marek LASSAK: Partition of sets of three dimensional Euclidean space into subsets of two times less diameters	355—361
Paweł HITCZENKO: Maximal inequalities for martingales with a directed index set	363—375
Mirosław TRUSZCZYŃSKI: Graceful unicyclic graphs	377—387
Feliks BARAŃSKI, Jan MUSIAŁEK: Nonlinear boundary value problems for certain elliptic equations of second and fourth order in the ball	389—401
Bogusław GROCHOWSKI: The four equilateral triangles connected with an arbitrary triangle	403—408
Andrzej KASPERSKI: Modular approximation by a filtered family of the Hammerstein operators	409—427
Nadzieja BOROWIK: Finsler differential space	429—438
Henryk UGOWSKI: Some approximation and estimate theorems and their application to the theory of parabolic equations in a Banach space	439—472
Marian KWAPISZ: Some result on the existence of solutions of operator equations in continuous function spaces	473—483
Adam BURACZEWSKI: A generalization of determinant theory of Fredholm operators in Banach spaces	485—494
Zygmunt K. CHARZYŃSKI, Tadeusz PRUCNAL: On certain characteristics of the family of prime filters of distributive lattice	495—497
Brian FISHER, Yukio KURIBAYASHI: Changing the variable in distributions	499—514
Ryszard PŁUCIENNIK, Stanisław SZUFLA: Nonlinear Volterra integral equations in Orlicz spaces	515—532
Bronisław PRZYBYLSKI, Zbigniew ŻEKANOWSKI: On different notions of the linear independence of vector fields on a differential space	533—543
Lothar v. WOLFERSDORF, Janina WOLSKA-BOCHENEK: A compound Riemann-Hilbert problem for holomorphic functions with nonlinear boundary condition	545—556
