

Contents

Stanisław KUŚ: On the completeness of certain systems in $L^2[z] = 1)$	395—403
K. D. SINGH, Y. N. SINGH: On the product of two almost paracontact manifolds	409—420
G. S. LINGAPPAIAH: Cyclical life tests with gamma distribution as the test model	421—435
Krzysztof TATARKIEWICZ: Nouvelle démonstration d'une propriété asymptotique des solutions d'un problème de Fourier	437—445
Antoni MARCZYK, Zdzisław SKUPIEŃ: General approach to line graphs of graphs	447—465
M. D. UPADHYAY, V. C. GUPTA: Invariant submanifolds of an $f(3,1)$ — manifold with complemented frames	467—482
Henryk KORNACKI: Non-Leibniz components in non-commutative algebras with unit	483—497
Marek PAŁASIŃSKI, Anna ROMANOWSKA: Varieties of commutative BCK-algebras not generated by their finite members	499—508
B. G. PACHPATTE: On a nonlinear boundary value problem for higher order integrodifferential equations	509—515
Mirosław DEMEŃSKI, Marek LASSAK: Covering plane sets with sets of three times less diameter	517—526
Józef SIDOROWICZ: „Тепловая дифракция“ на гладкой выпуклой области	527—536
Leszek J. CIACH: On the conjugates of some operator spaces, I... . .	537—554
Anna SZYMANOWSKA: Application of integral transforms to solving linear equations	555—565
Dieter PUMPLIN: The Hahn-Banach theorem for totally convex spaces	567—588
Bogdan KOSZELA: On some condition of the equality of classes of continuous functions with different topologies	589—592
Teresa MARKIEWICZ, Lucyna REMPULSKA: On the application of the Legendre polynomials to the Dirichlet problem for the Laplace equation	593—599
Saad Ibrachim MAHDI: Central derivations of Lie algebras	601—607
Sherzed AL-TALABANI: Ideals in FSJ (r)	609—617
Mirosław TRUSZCZYŃSKI: A graph with mean distance being a given rational	619—620
Andrzej BORZYMOWSKI: Generalized solutions of a Goursat problem for a polyvibrating equation of D. Mangeron	621—648
J. WOLSKA-BOCHENEK, E. M. CHRZANOWSKI: Nonlinear compound problem for elliptic system in the plane	649—660
