Antoni Lech DAWIDOWICZ: On the Avez measure for hyperbolic equation	271—275
Valeriu POPA: Sur les multifonctions faiblement continues et H-presque continues	277—283
Hanna MATUSZCZYK: Regularity and coregularity in quasi-algebraic spaces	285—291
Zdeněk ŠMARDÁ: The asymptotic behaviour of solutions of the singular integro-differential equation	293—308
Jarosław MORCHAŁO: Asymptotic equivalence of differential equation in Banach space	309—320
Bogusław GROCHOWSKI: Central projection of a segment perpendicular to the given plane	321—324
Janusz SZUSTER: Characteristic equations for controlled iterative systems	325—337
Łechosław HĄCIA: Approximate solutions of a certain class of operator equations	339—349
Jerzy RADZIKOWSKI: The uniqueness and some properties of a solution of a linear non-homogeneous symmetric t-hyperbolic system	351—364
Z.Q. XIA, Zhao CHUNJIN: Second-order expansions for a class of quasidifferentiable functions	365—389
Witold TYM: Application de la méthode des éléments finis à un problème initial pour l'équation différentielle avec "mémoire"	391—400
Dieter OESTREICH: Ein Problem der elektrochemischen Bearbeitung mit gekrümmter Katode	401—412
Adam PASZKIEWICZ: An almost uniform limit in a W^* -algebra is unique	413—417
Andrzej KASPERSKI: The modular spaces of multifunctions	419—439
Bogusław KACZMARSKI: On the measure and Borel type of the set of points of one-sided non-differentiability	441—460
Krzysztof SARNOWSKI: On the existence of certain vector fields on nearly conformally symmetric manifolds	461—473
Stanisław KRYNSKI: A characterization of discrete topological spaces as convexity spaces	475—478
Anatolij DVUREČENSKIJ, Sylvia PULMANNOVÁ: Type II joint distribution and compatibility of observables	479—497
Zygfryd KOMINEK: On a local stability of the Jensen functional equation	499—507
Andrzej NOWAKOWSKI: A class of nonlinear hyperbolic equations	509—521
G.S. LINGAPPAIAH: On some generalizations of the Poisson distribution	523—536
Jacek WESOŁOWSKI: Characterizations of some processes by properties of conditional moments	537—556
Anna DYMITRUK: Vibration control of the system of strings connected in a node	557—571
