Michał HELLER, Zbigniew ŻEKANOWSKI: Seminar on differential spaces	347-348
Michał HELLER: Algebraic foundation of the theory of differential spaces	349-364
Klaus BUCHNER: Some aspects of d' - spaces	365-373
Peter DOMBROWSKI, Jürgen ZITTERBARTH: On the planetary motion in the 3-dim. Standard spaces M^3_{κ} of constant curvature $\kappa \in \mathbb{R}$	375-458
Alfred FRÖLICHER: On jets of infinite order and on smooth differential operators . .	459-464
Jürgen ZITTERBARTH: Some remarks on the motion of a rigid body in a space of constant curvature without external forces	465-494
Piotr MULTARZYŃSKI: Whitney topology and structural stability of smooth mappings in differential spaces	495-514
Piotr MULTARZYŃSKI, Zbigniew PASTERNAK-WINIARSKI: Differential groups and their Lie algebras	515-537
Piotr MULTARZYŃSKI, Zbigniew ŻEKANOWSKI: On general Hamiltonian dynamical systems in differential spaces	539-555
Piotr MULTARZYŃSKI, Wiesław SASIN, Zbigniew ŻEKANOWSKI: Vectors and vector fields of k -th order on differential spaces	557-572
Bronisław PRZYBYLSKI: Product final differential structures on the plane	573-599
Wiesław SASIN: Differential spaces and singularities in differential space-times	601-634
Wiesław SASIN: Geometrical properties of gluing of differential spaces	635-656
Włodzimierz WALISZEWSKI: Inducing and coinducing in general differential spaces	657-664
Zbigniew ŻEKANOWSKI: On distributions in differential spaces	665-675
Wojciech DOMITRZ, Wiesław SASIN: On the dimension of the tangent differential space	677-685
Krzysztof WITCZYŃSKI: On some property of Pascalian hexagons	687-689
Justyna SAWICKA, Krzysztof WITCZYŃSKI: Factorization of a collineation of the three-dimensional projective space onto two normal cyclic collineations	691-699
