

Contents

P. MULTARZYŃSKI, W. SASIN: On the dimension of a tangent space to a structured space	255-264
E. KIR'YATSKIS: Some variational formulas in the class $\tilde{K}_n(E)$ and their applications	265-274
A. K. GAUR, MURSALEEN: Difference sequence spaces defined by a sequence of moduli	275-278
N. SHUKLA, P. SHUKLA: A convolution approach to certain subclasses of univalent functions related to complex order	279-284
Ö. GÖK: Characterization of the dual center of barrelled spaces	285-288
M. CHRAPEK: On the extremal behaviour of some stationary Markov sequence	289-298
S. MIDURA: On solutions of some system of functional equations	299-304
J. GÓRNICKI, T. B. SINGH: On some generalization of uniformly Lipschitzian mappings and its fixed points	305-311
N. T. LONG, N. H. NGHIA, N. K. KHOI, D. V. RUY: On a system of functional equations	313-324
M. ZIMA: The abstract Gronwall lemma for some nonlinear operators	325-332
J. R. JACHYMSKI: Remarks on a paper by Beg, Latif and Minhas about fixed points	333-338
W. ŚLEPAK: On multivalued integral mean	339-344
D. N. KUPELI: Semi-Riemannian transversal maps	345-354
S. S. DRAGOMIR, B. MOND: Integral inequalities of Hadamard type for log-convex functions	355-364
V. G. ANGELOV, TS. Y. TSACHEV: A coincidence theorem for densifying mappings and applications	365-376
J. JANUSZEWSKI: Filling a cube with subsequences of boxes	377-386
A. MISIAK, A. RYŻ: φ -functions of N variables	387-393
G. KOHR: Certain sufficient conditions of injectivity in C^n	395-404
E. MAGNUCKA-BLANDZI, J. POPENDA: On the behaviour of rational first order difference equation with constant coefficients	405-416
A. WALISZEWSKA: On diffeomorphic actions on Cantor sets	417-428
M. CRISTEA: On the openness of a multivalued function. Open discrete multivalued functions	429-436
S. JAFARI, T. NOIRI: On almost weakly continuous functions	437-443
B. RUINI: Crystallizations of Seifert fibered 3-manifolds	445-466
L. TROJNAR-SPELINA: Univalence of certain analytic functions	467-476
T. KOWALSKI, W. SADKOWSKI: Applications of C -groups to existence of solutions of some mixed problems	477-484
