A. DVUREČENSKIJ, M. G. GRAZIANO: On representations of commutative BCK-algebras	227–246
B. ROSZKOWSKA-LECH: A representation of symmetric idempotent and entropic groupoids	247–262
M. SKRZYŃSKI: Remarks on applications of rank functions to algebraic sets of matrices	263–271
D. JAGIEŁŁO: Tensor products in concrete categories	273–280
I. PAWLIKOWSKA: An extension of a Theorem of Flett	281–286
S. MAZOUZI: Barycentric transformations	287–296
J. DRONKA, J. SOKÓŁ: On the location of critical points of some complex polynomials	297–302
A. SZADKOWSKA: The Cauchy problem for certain generalized differential equations of first order with singularity	303–322
S. KRZYŚKA, I. KUBIACZYK: On bounded pseudo and weak solutions of a nonlinear differential equation in Banach spaces	323–330
M. GHISI: A note on the abstract Cauchy–Kovalevskaya Theorem	331–343
G. ZHANG, S. S. CHENG: On connected half-linear differential equations . .	345–354
P. KOSOWSKI: A note on the relative error for the eigenvalues of the Sturm–Liouville problem	355–362
W. SMAJDOR: Note on Jensen and Pexider functional equations	363–376
S. STOIŃSKI: $(VC)^{(n)}$ -almost periodic functions	377–383
M. ADAMCZAK: On compactness of $C^{(n)}$ -almost periodic functions	385–393
D. TÜRKOĞLU, O. ÖZER, B. FISHER: Some fixed point theorems for set-valued mappings in uniform spaces	395–400
A. A. MEHEMED: Algebraic proofs of Kwapień’s and Lamperti’s representation theorems	401–412
J. M. RASSIAS: Six-dimensional Landau inequalities	413–431
Ö. GÖK: On reflexivity of scalar-type spectral operators	433–439
J. JAKÓBOWSKI: A geometrical characterization of Minkowski planes of order 3 and 4	441–456
