

Contents

A. V. FIGALLO, A. FIGALLO JR., M. FIGALLO, A. ZILIANI: Łukasiewicz residuation algebras with infimum	751–758
I. CHAJDA, R. HALAŠ, J. KÜHR: When is a BCC-algebra equivalent to an MV-algebra?	759–768
I. CHAJDA, H. LÄNGER: A common generalization of ortholattices and Boolean quasirings	769–774
V. CHENG, S. L. WISMATH: Bases for the k -normalizations of varieties of bands	775–787
F. WEI, Z. XIAO: Generalized Jordan derivations on semiprime rings	789–798
M. K. AOUF: Certain subclasses of multivalent prestarlike functions with negative coefficients	799–814
S. NADARAJAH: Explicit expressions for moments of F order statistics . . .	815–818
A. K. SHUKLA, J. C. PRAJAPATI: Generalization of a class of polynomials . .	819–826
M. S. N. MURTY, G. S. KUMAR: Initial and boundary value problems for fuzzy differential equations	827–838
B. G. PACHPATTE: On Volterra-Fredholm integral equation in two variables .	839–852
M. A. OZCAN, Y. BOLAT: Oscillation criteria for high-order sublinear neutral delay forced difference equations with oscillating coefficients	853–857
K. KAYADUMAN, H. ÇOŞKUN: On the $\sigma^{(A)}$ -summability and $\sigma^{(A)}$ -core . .	859–867
N. SHAHZAD: A best proximity pair theorem	869–874
H. G. INCE: A note on some subspaces of an FK -space	875–884
M. ŞENGÖNÜL: On the generalized Nakano sequence space	885–893
N. HUSSAIN, A. LATIF, S. AL-MEZEL: Noncommuting maps and invariant approximations	895–905
V. POPA: On Frigon-Granas type multifunctions satisfying an implicit relation	907–912
A. MATRAŠ: A residual skewaffine plane of a Möbius or Minkowski plane . .	913–924
K. WITCZYŃSKI: Perspective case of the Pappus theorem in the n -dimensional projective space	925–928
R. PRASAD, A. K. RAI, S. S. SHUKLA, M. M. TRIPATHI: A note on transversal hypersurfaces of Lorentzian almost paracontact manifolds . .	929–938
İ. ZORLUTUNA: On a function of hyperconnected spaces	939–950
K. FURMAŃCZYK: The theorems characterizing the positive quadrant dependence models and Lancaster distributions	951–962
J. LI: A note on Murthy's conjecture	963–969
B. JANKOWSKA, M. PRAŻMOWSKA, K. PRAŻMOWSKI: Line graphs, their Desarguesian closures, and corresponding groups of automorphisms	971–986
