Retraction of: Establishing a stable platform for the measurement of blood endotoxin levels in the dialysis population

<https://doi.org/10.1515/dx-2023-0136>

Retraction of: Shyam Dheda*, Hongjin Min, David Vesey, Carmel Hawley, David W. Johnson and Magid Fahim. “Establishing a stable platform for the measurement of blood endotoxin levels in the dialysis population”. *Diagnosis* 2021; 8(2): 249–256 (<https://doi.org/10.1515/dx-2019-0088>).

The retraction has become necessary as the Ethical Approval did not include the volunteer control group, who had provided only verbal consent and this group was not stated in the approved protocol.

The editors and the publisher sincerely regret the situation and wish to apologize for any inconvenience that may have been caused.

Shyam Dheda and Hongjin Min contributed equally to this work.
