

Call for Papers

Invitation to Contribute to the *European Journal of Nanomedicine*

Dear Friends of Nanomedicine,

Having been successfully relaunched in 2012 by the academic publisher De Gruyter in close cooperation with the CLINAM, the *European Journal of Nanomedicine (EUJNM)* provides its readers with novelties in general and basic Nanomedicine publishing **clinically focused research for the benefit of patients**. We would hereby like to kindly invite you to contribute to our journal.

The peer-reviewed quarterly *EUJNM* issues includes Reviews, Original Research Articles, Case Reports, Short Communications and Letters. We offer rapid editorial evaluation and short publication times without compromising on scientific quality. **Outstanding papers** will be **freely accessible** by **Editor's choice**. We would like to emphasize that there will be **no page charges**, and no charges for color illustrations. Accepted papers are published ahead of print in an accelerated online-only format for immediate visibility within the scientific community. Manuscript submission and peer review is done online via ScholarOne (Thomson Reuters) at <http://mc.manuscriptcentral.com/eujnm>.

Of course, we will be happy to provide you with any assistance during the submission and publication process. We would expect your contribution by the **end of March** if that is feasible for you.

For further information, please have a look at the journal's website www.degruyter.com/view/j/ejnm and do not hesitate to contact us at our Editorial Office (editorial.nanomedicine@degruyter.com).

We would be honored to receive a positive reply from you and look forward to your feedback on our proposal. Thank you for your support.

Sincerely and with kind regards from Berlin

Karin Lason
